Family Property Law - Thomas P. Gallanis - 2014-04-25
The Sixth Edition of this highly-regarded casebook continues its innovative emphasis on the connection between the law of trusts and estates and the changing American family. Cases and Materials in Juvenile Law - J. Eric Smithburn - 2013
"Cases and Materials in Juvenile Law, Second Edition, provides teachers of juvenile law and process with a comprehensive set of course materials to examine both the delinquency and child welfare systems. Arranged in sixteen chapters, the book is roughly divided equally between delinquency and child welfare. There are separate chapters on children's rights in public schools, special advocacy for children, mental health commitment of children, and alternative systems of dispute resolution in children's cases. Each chapter contains notes and questions intended to supplement the material and stimulate discussion. Some chapters contain problems, which put the student in a practical setting to analyze possible legal solutions. The first and last chapters of the book contain material which encourages an examination of the history and philosophical underpinnings of the juvenile court and a critical analysis of the future of the juvenile court. No attempt is made to advocate a blueprint for the juvenile court; rather various possibilities are offered for discussion at the end of term." -- Publisher's description

Incarceration and the Law, Cases and Materials - Margo Schlanger - 2020-05-29
In the age of American mass incarceration, a complex legal regime governs prison conditions and presents a host of controversial questions at the intersection of constitutional liberty, statutory interpretation, administrative regulation, and public policy. This is a completely overhauled, re-titled, and much-expanded version of the leading casebook about incarceration. It addresses both pretrial and post-conviction incarceration, presenting Supreme Court and leading lower court case law, statutes, litigation materials, professional standards, academic commentary, and prisoner writing. Topics include conditions of confinement, civil liberties, particular prisoner populations and relevant legal issues (race and national origin discrimination, the particular issues/law governing treatment of incarcerated women, LGBTQ people, and people with disabilities). Litigated remedies (injunctive litigation, damages, the Prison Litigation Reform Act, and criminal prosecution of prison staff), are also covered in detail, as is non-litigation oversight. The casebook is supplemented by an open-access website that offers additional resources and sources for further reading.

It provides an ideal introduction to family law for undergraduates, but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments. Review of the second edition: 'Diduck and Kaganas examine legal developments to shed light on society, principally by investigating the ways in which family law constructs and regulates family life and responsibilities. Theirs is an important and ambitious book that aims ultimately at a feminist restatement of family law. . . [T]he [book] is written and referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels, whether looking for theoretical inspiration or drawing up a literature review. The range of diverse sources that Diduck and Kaganas draw on is impressive: they seem to have included every bit of material that helps feminists make sense of family law. There is a well-pitched selection of further reading of such material at the end of each chapter. What's more, they undersell themselves by describing their book as "Text, Cases and Materials", because they have woven by far the largest proportion of the cases and materials into the text.' Helen Reece, Times Higher Education, May 2007. Reviews of first edition: 'A stimulating work which attempts to situate family law in its social, historical and political context. Its appeal should not be confined to family law students, as its commitment to a critical and analytical approach offers insights and ideas with broader significance.' Mary Childs, Child and Family Law Quarterly, September 2002 'The arguments are provocative, the analysis is stimulating and the materials amassed strongly support the authors' aim to question the "axiomatic status of what is traditionally designated as the family".' Fiona E Raitt, Infant and Child Development, September 2002 'It is not often that one can say of a textbook in Law that it "makes interesting reading" with quite the enthusiasm that can be expressed for this text. This new publication offers something that few textbooks seem to offer - a book you CAN open up virtually anywhere and the broad family law spectrum.' Penny Booth, The Law Teacher, September 2002 'All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references. As a teaching manual, it is excellent - a coherent feminist perspective across the entire range of family law' Marty Slaughter, Feminist Legal Studies, July 2003

Its appeal should not be confined to family law students, as its commitment to a critical and analytical approach offers insights and ideas with broader significance.' Mary Childs, Child and Family Law Quarterly, September 2002 'The arguments are provocative, the analysis is stimulating and the materials amassed strongly support the authors' aim to question the "axiomatic status of what is traditionally designated as the family". ' Fiona E Raitt, Infant and Child Development, September 2002 'It is not often that one can say of a textbook in Law that it "makes interesting reading" with quite the enthusiasm that can be expressed for this text. This new publication offers something that few textbooks seem to offer - a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum.' Penny Booth, The Law Teacher, September 2002 'All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references. As a teaching manual, it is excellent - a coherent feminist perspective across the entire range of family law' Marty Slaughter, Feminist Legal Studies, July 2003

Family Law Across Borders - MELISSA A. HALE KUCINSKI (BRUCE. COFFEE, MICHAEL S.) - 2021-07-16
This casebook provides a comprehensive, accessible, and up-to-date analysis of family law from comparative and private international law perspectives. It emphasizes the need to examine complex cross-border family situations by comparing legal systems and understanding the jurisdictional overlay, with a particular focus on the United States. The casebook addresses some of the most intimate and legally complicated situations in which cross-border families find themselves, including the validity of foreign marriages, simultaneous divorce proceedings in multiple countries, the changing law in creating families using adoption and assisted reproductive technology, and how to remedy an international parental child abduction. In addition, the book dives into the importance of judicial assistance treaties and laws when understanding the legal issues, including the necessity to have proper service in a foreign country, obtaining evidence overseas, and authenticating foreign public documents. This book is a superb companion for law students and practitioners alike, and can readily be used in a traditional theory-based class and in practicum courses. It provides substantive material for a course on International Family Law, or can supplement a course on Family Law, International Law, or Comparative Law.

**Federal Administrative Law, Cases and Materials - CasebookPlus - Kristin E. Hickman - 2018-12-12**

This casebook is designed with an emphasis on accessibility, includes many discussion problems and questions focusing on real-world application, administrative law as a subject matter encompasses some very interesting theoretical discussions. Rather than remain strictly theoretical to the point of bordering on encyclopedic, this book tends toward the more practical, while still including enough reference to theory to enable a professor who wants to introduce more theoretical discussion into the classroom to do so. The new edition includes sufficient material to support an advanced administrative law course taught to students with previous exposure to the regulatory state.
