Getting the books **Asian Security Practice Material And Ideational Influences** now is not type of inspiring means. You could not abandoned going following book store or library or borrowing from your friends to gate them. This is an completely simple means to specifically acquire lead by on-line. This online pronouncement asian security practice material and ideational influences can be one of the options to accompany you like having further time.

It will not waste your time. tolerate me, the e-book will unconditionally tune you other business to read. Just invest little mature to open this online statement **Asian Security Practice Material And Ideational Influences** as with ease as review them wherever you are now.

Despite the end of the Cold War, security continues to be a critical concern of Asian states. Allocations of state revenues to the security sector continue to be substantial and have, in fact, increased in several countries. As Asian nations construct a new security architecture for the Asia-Pacific region, Asian security has received increased attention by the scholarly community. But most of that scholarship has focused on specific issues or selected countries. This book aims to lay the groundwork for a comprehensive, in-depth understanding of Asian security by investigating
practices in sixteen Asian countries. The book undertakes an ethnographic, country-by-country study of how Asian states conceive of their security. For each country, it identifies and explains the security concerns and behavior of central decision makers, asking who or what is to be protected, against what potential threats, and how security policies have changed over time. This inside-out or bottom-up approach facilitates both identification of similarities and differences in the security thinking and practice of Asian countries and exploration of their consequences. The crucial insights into the dynamics of international security in the region provided by this approach can form the basis for further inquiry, including debates about the future of the region. The book is in three parts. Part I critically reviews and appraises the debate over defining security and provides a historical overview of international politics in Asia. Part II investigates security countries, the countries selected and grouped on the basis of security independence. Based on the findings of the country studies and drawing on other published works, Part III compares the national practices with a view to identifying and explaining key characteristics of Asian security practice and conceptualization on the basis of the Asian experiences.

**Asian Security Order** - Muthiah Alagappa - 2003

More than a decade has passed since the end of the Cold War, but Asia still faces serious security challenges. These include the current security environment in the Korean peninsula, across the Taiwan Strait, and over Kashmir, the danger of nuclear and missile proliferation, and the concern with the rising power of China and with American dominance. Indeed, some
These include the current dangerous and unstable place. Alagappa disagrees, maintaining that Asia is a far more stable, predictable, and prosperous region than it was in the postindependence period. This volume also takes account of the changed security environment in Asia since September 11, 2001. Unlike many areas-studies approaches, Alagappa’s work makes a strong case for taking regional politics and security dynamics seriously from both theoretical and empirical approaches. The first part of this volume develops an analytical framework for the study of order; the salience of the different pathways to order is examined in the second part; the third investigates the management of specific security issues; and the final part discusses the nature of security order in Asia.

**Peace and Security in the Asia-Pacific: Theory and Practice** - Sorpong Peou - 2010-04-15

Demonstrating that none of the various perspectives under review has emerged as the clear winner in the struggle for theoretical hegemony in security studies, this book shows that eclectic perspectives, like democratic realist institutionalism, can better explain peace and security in the Asian Pacific. • An extensive bibliography covers various theoretical perspectives in the field of international relations/security studies and materials on the Asian Pacific • Helpful indexes include specific countries, security issues, and theoretical perspectives

The Many Faces of Asian Security - Sheldon W. Simon - 2001-08-21
This authoritative volume evaluates post-Cold War approaches to security in the Asia Pacific. Leading specialists first examine traditional security concerns—military capabilities, balance of power, territorial and resource disputes, the effects of new technologies on military strategy, and the problems involved in maintaining sovereignty in the face of globalization. They then introduce the new security agenda of economic and financial stability, the effects of environmental degradation, human rights and political stability, and the impact of transnational crime. Their wide-ranging and incisive discussions will be of interest to policymakers, scholars, and students alike.
addition it reveals interesting and political stability, and the impact of transnational crime. Their wide-ranging and incisive discussions will be of interest to policymakers, scholars, and students alike.

This is an unparallelled analysis of the state of the United Nations peace operations and their impact on Asian security. This new volume examines new strategies being adopted by the UN; including doctrinal shifts in peace operation, and assesses the division of labour between the UN, regional organisation and non-governmental organisations/actors. Based on selected papers from mostly Asian scholars, the book offers regional perspectives from South, Southeast and Northeast Asia on the changing nature of UN Peace operations and analyses some of the core issues that are of critical relevance to regional security in Asia. In

new insights on the new players in the area of peace operations - i.e. China and Japan and considers their projected roles as defined by their respective security concepts. It also delves into issues of possible areas of concern caused by the new activism of these regional powers in peace operations. Finally, the book also revisits the significant lessons learnt from the UN experience in Cambodia and East Timor and examines their impact on future directions of peace operations. This book was previously published as a special issue of the leading journal International Peacekeeping.

International Handbook of War, Torture, and Terrorism - Kathleen Malley-Morrison - 2012-12-15

Armed conflict, on domestic or foreign soil, impacts people’s daily lives and shapes policy around the world. Millions live with the threat of terrorism, whether from random sources or known enemies. And the acceptability of torture is debated by politicians and public alike. The International Handbook of War, Torture, and Terrorism synthesizes historical backgrounds, current trends, and findings from the Personal and Institutional Rights to Aggression and Peace Survey (PAIRTAPS), administered in forty countries over nine global regions. Contributors examine the social, cognitive, and emotional roots of people’s thinking on war and national security issues, particularly concerning the role of governments in declaring war, invading other
psychology, political science, prisoners. By focusing on the cultural traditions and colonial histories of broad regions rather than of individual nations, the book demonstrates how context shapes ordinary citizens’ views on what is justifiable during times of war, as well as more nebulous concepts of patriotism and security. The Handbook: Introduces the PAIRTAPS and explains the methodology for analyzing responses. Defines war-related concepts from the unique perspectives of Western Europe, U.K./U.S., Middle East, Gulf States, Russia/Balkans, Africa, Latin America, South/Southeast Asia, and East Asia. Provides an integrative summary of definitions and points of view. Situates results in terms of social engagement/disengagement theory. Considers implications for peace and reconciliation. As a reflection of the changing global landscape, the International Handbook of War, Torture, and Terrorism deserves to be read by a wide range of researchers in peace sociology, and anthropology.

Critical security in the Asia-Pacific - Anthony Burke - 2021-06-15
In the wake of 9/11, the Asian crisis and the 2004 tsunami, traditional analytical frameworks are increasingly unable to explain how individuals and communities are rendered insecure, or advance individual, global or environmental security. In the Asia-Pacific, the accepted wisdom of realism has meant that analyses rarely move beyond the statist, militarist and exclusionary assumptions that underpin traditional realpolitik. This innovative new book challenges these limitations and addresses the missing problems, people and vulnerabilities of the Asia-Pacific region. It also turns a critical eye on traditional interstate strategic dynamics. Critical security in the Asia-Pacific applies both a critical theoretical approach that interrogates the deeper assumptions underpinning security discourses, and a human-centred policy approach that focuses on the
and exclusionary assumptions emancipation of individuals and communities. Leading Asia-Pacific researchers combine to apply these frameworks to the most pressing issues in the region, from the Korean peninsula to environmental change, Indonesian conflict, the ‘war on terror’ and the plight of refugees. The result is a sophisticated and accessible account of often-neglected realities of marginalization in the region, and a compelling argument for the empowerment and security of the most vulnerable.

**South Asian Security and International Nuclear Order** - Mario Esteban Carranza - 2016-04-01

Mario Carranza studies in depth the linkages between Indo-Pakistani nuclear relations and the International Nuclear Order. He critically analyzes the de facto recognition by the United States of India and Pakistan as nuclear weapon states and looks at the impact of that recognition on the International Nuclear Order and its linchpin, the Nuclear Non-Proliferation Treaty (NPT). The book provides a critical analysis of the New International Nuclear Order sponsored by the United States after the September 11 terrorist attacks and the place of India and Pakistan in that order. The author considers the survival of India and Pakistan in relation to a strategy of nuclear deterrence and debates the possibility of establishing a robust nuclear arms control regime in South Asia as part of a broader effort to revive global nuclear disarmament negotiations.

Non-Traditional Security Challenges in Asia -
ShebontiRay Dadwal - 2017-07-05
Asia is challenged by a number of non-traditional security issues including the foodenergywater nexus, climate change, transnational crime, terrorism, disaster relief and economic performance. This volume categorizes and clarifies some key emerging issues in the area and looks at their interconnectedness and implications. The essays explore how non-traditional issues can manifest as security challenges, and the role of the state and military in dealing with these. Issue-based and area-specific, they rely on facts and interpretation of data, avoiding alarmist predictions. A nuanced and analytical approach into an uncharted area, this book will be essential for policymakers, researchers and students of security and strategic studies, political economy, as well as the general readers.

This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post-Cold War Asia. In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations (ASEAN) in Asia’s multilateral architecture and its component institutions, this book argues that the four non-ASEAN countries of interest here 3/4 Australia, Japan, China and the United States 3/4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre-inception to the present. The work does not contend that existing scholarship overstates ASEAN’s significance to the successes and failures of Asia’s

Rather, it claims that the impact of non-ASEAN stakeholders in innovating multilateral architecture in Asia has been understated. Whether ASEAN has fared well or poorly as a custodian of Asia’s regional architecture, the fact remains that the countries considered here, notwithstanding their present discontent over the state of that architecture, are key to understanding the evolution of Asian multilateralism. This book will be of much interest to students of Asian politics, international organisations, security studies and IR more generally.

The United States, China and Southeast Asian Security - W. Bert - 2002-12-10
China's growing economy and military power may allow it to challenge US influence in East and Southeast Asia. Wayne Bert examines the likelihood of this and the impact it would have on Southeast Asian security. The approach taken by both the US and China will affect the outcome of this struggle and both the Southeast Asian commitment to economic growth and the development of regional institutions will encourage peaceful evolution and a power transition that avoids major conflict.

**Security and Southeast Asia** - Alan Collins - 2003

From internal oppression in Burma to interstate conflict in the South China Sea, the people of Southeast Asia face a range of threats. This book identifies and explains the security challenges -- both traditional and nontraditional -- confronting the region. Collins addresses the full spectrum of security issues, discussing the impact of ethnic tensions and competing political ideologies, the evolving role of ASEAN, and Southeast Asia's interactions with key external actors (China, Japan, and the United States). The final section of the book explores how the region's security issues are reflected in two current cases: the South China Sea dispute and the war on terrorism.

**Small States and International Security** -
This book explains what ‘small’ states are and explores their current security challenges, in general terms and through specific examples. It reflects the shift from traditional security definitions emphasizing defence and armaments, to new security concerns such as economic, societal and environmental security where institutional cooperation looms larger. These complex issues, linked with traditional power relations and new types of actors, need to be tackled with due regard to democracy and good governance. Key policy challenges for small states are examined and applied in the regional case studies. The book deals mainly with the current experience and recent past of such states but also offers insights for their future policies. Although many of the states covered are European, the study also includes African, Caribbean and Asian small states. Their particular interest and relevance is outlined, as is the connection between their security smallness. Policy lessons for other states are then sought. The book is the first in-depth, multi-continent study of security as an aspect of small state governance today. It is novel in placing the security dilemmas of small states in the context of wider ideas on international and institutional change, and in dealing with non-European states and regions.

Small States and International Security - Clive Archer - 2014-03-14
This book explains what ‘small’ states are and explores their current security challenges, in general terms and through specific examples. It reflects the shift from traditional security definitions emphasizing defence and armaments, to new security concerns such as economic, societal and environmental security where institutional cooperation looms larger. **Routledge Handbook of Asian Regionalism** - Mark Beeson - 2012-03-15
The Routledge Handbook of Asian Regionalism is a definitive introduction to, and analysis of, the development of regionalism in Asia, including coverage of East Asia, Southeast Asia and South Asia. The contributors engage in a comprehensive exploration of what is arguably the most dynamic and important region in the world. Significantly, this volume addresses the multiple manifestations of regionalism in Asia and is consequently organised thematically under the headings of:
- conceptualizing the region
- economic issues
- political issues
- strategic issues
- regional organizations

As such, the Handbook presents some of the key elements of the competing interpretations of this important and highly contested topic, giving the reader a chance to evaluate not just where Asian regionalism is going but also how the scholarship on Asian regionalism is analysing these trends and events. This book will be an indispensable resource for students and scholars of Asian politics, international relations and regionalism.

In the turbulent decade since the ending of the Cold War in Europe, a new element of the international relations of Asia and the Pacific has been the emergence of multilateral security dialogues. Both in governmental arenas such as the ASEAN Regional Forum and numerous "track two" channels including the Council for Security Cooperation in Asia-Pacific, it has been a decade of creative interaction and new thinking. The Asia-Pacific Security Lexicon identifies the key
phrases and ideas that have been the foundation of these dialogues, looking at their origins in international diplomacy and tracing their specific adaptation and modification to the conditions of a trans-Pacific setting. Of interest to both theoreticians and practitioners, the Lexicon is at once a handbook for regional diplomacy and an assessment of the factors that have shaped regional discussions.

ASEAN’s Cooperative Security Enterprise - H. Katsumata - 2010-01-20
Katsumata demonstrates that
something interesting is taking place inside the ASEAN Regional Forum (ARF). He shows that an association of minor powers in Southeast Asia is promoting its cooperative security norm, and influencing the policies of its external partners. Thus, the ARF is one of the important pathways to regional security.

**The Rise of China in Asia: Security Implications** - - -

- Michael J. Green - 2009-02-25
Traditionally, stability in Asia has relied on America's bilateral alliances with Japan, Australia, and the Republic of Korea. Yet in recent years, emergent and more active multilateral forums such as the Six-Party Talks on North Korea and the East Asia Summit have taken precedence, engendering both cooperation and competition while reflecting the local concerns of the region. Some are concerned that this process is moving toward less-inclusive, bloc-based "talking shops" and that the future direction and success of these arrangements, along with their implications for global and regional security and prosperity, remain unclear. The fifteen contributors to this volume, all leading scholars in the field, provide national perspectives on regional institutional architecture and their functional challenges. They illuminate areas of cooperation that will move the region toward substantive
direction and success of these norms, and strengthened domestic institutions. They also highlight the degree to which institution building in Asia a region composed of liberal democracies, authoritarian regimes, and anachronistic dictatorships has become an arena for competition among major powers and conflicting norms, and assess the future shape of Asian security architecture.

**Rethinking Security in East Asia** - J. J. Suh - 2004
Is East Asia heading towards war? This text makes a case for a new theoretical approach (called 'analytical eclecticism' by the authors) to the study of Asian security.

Located in the center of Asia with one of the largest land frontiers in the world and 14 neighbors whose dispositions could not easily be predicted, China has long been obsessed with security. In this handbook, an internationally renowned team of contributors provide a comprehensive and systematic analysis of contemporary thinking about Chinese national security. Chapters cover the PRC's historical, ideological and doctrinal heritage related to security, its security arrangements and policies targeting key regions and nations of the world, the security aspects of the PRC's ground, air, sea, space and cyber forces, as well as the changing and expanding definition and scope of China's security theory and practice.
and up-to-date Chinese-Chinese's security theory and practice.

**A Rising China and Security in East Asia** - Rex Li - 2008-11-21
This volume provides a comprehensive and in-depth analysis of the security discourse of Chinese policy elites on the major powers in East Asia in relation to China's self-perception as a rising power. It is the first book-length study that utilizes International Relations theories systematically to analyze Chinese security perceptions of the United States, Japan and Russia, and the debate among Chinese international relations specialists on how China should respond to the perceived challenge from the major powers to its rise to a global status. Rex Li argues that the security discourse of Chinese policy analysts is closely linked to their conception of China's identity and their desire and endeavour to construct a great power identity for China. Drawing on extensive language sources, the study demonstrates that Chinese elites perceive the power, aspirations and security strategies of other East Asian powers primarily in terms of their implications for China's pursuit of great power status. This new work will contribute significantly to the on-going academic and policy debate on the nature and repercussions of China's rise. This book will be essential reading for undergraduate and postgraduate students and scholars of Asian security, China's foreign relations, security studies and international relations.

**A Rising China and Security in East Asia** - Rex Li - 2008-11-21
This volume provides a comprehensive and in-depth analysis of the security discourse of Chinese policy elites on the major powers in East Asia in relation to China's self-perception as a rising power. It is the first book-length study that utilizes International Relations theories systematically to
analyze Chinese security perceptions of the United States, Japan and Russia, and the debate among Chinese international relations specialists on how China should respond to the perceived challenge from the major powers to its rise to a global status. Rex Li argues that the security discourse of Chinese policy analysts is closely linked to their conception of China’s identity and their desire and endeavour to construct a great power identity for China. Drawing on extensive and up-to-date Chinese-language sources, the study demonstrates that Chinese elites perceive the power, aspirations and security strategies of other East Asian powers primarily in terms of their implications for China’s pursuit of great power status. This new work will contribute significantly to the on-going academic and policy debate on the nature and repercussions of China’s rise. This book will be essential reading for undergraduate and postgraduate students and scholars of Asian security, security studies and international relations.

The International Relations of Northeast Asia - Samuel S. Kim - 2004
Written by a team of leading scholars, this volume presents a variety of theoretical perspectives and case studies to offer a comprehensive analysis of the pressures that shape the policy choices of China, Russia, Japan, the United States, North and South Korea, and Taiwan.

The International Relations of Northeast Asia - Samuel S. Kim - 2004

Southeast Asian Perspectives on Security - Derek Da Cunha - 2000
The conventional
the very fluid geopolitical issues in the modern world has been very much a Western-driven phenomenon. That is to say, Western strategists, thinkers and writers have tended to establish the principles of strategic concepts, and to develop theories around them. While there is utility in much Western strategic thought, it is also apt to note that some of it does not have full relevance or validity when applied to a regional setting that is far removed from the geographical boundaries of the Western world. In that connection, this volume is partly intended to serve as an antidote to much of the Western commentary on Asia-Pacific security issues by providing a range of perspectives on those issues from the Southeast Asian point of view. It offers a range of Southeast Asian perspectives on the multifaceted security issues that confront the Asia-Pacific region in the post-Cold War era. That there is no unitary perspective emanating from the region is symptomatic of situation that characterizes Asia-Pacific security, and, of equal import, the different schools of thought that analysts in the region have chosen to subscribe to.

**Southeast Asian Perspectives on Security** - Derek Da Cunha - 2000

Asia-Pacific Security perspectives on those issues from the Southeast Asian point of view. It offers a range of Southeast Asian perspectives on the multifaceted security issues that confront the Asia-Pacific region in the post-Cold War era. That there is no unitary perspective emanating from the region is symptomatic of the very fluid geopolitical situation that characterizes Asia-Pacific security, and, of equal import, the different schools of thought that analysts in the region have chosen to subscribe to.

New developments in the Asia Pacific are forcing regional officials to rethink the way they manage security issues. The contributors to this work explore why some forms of security cooperation and institutionalisation in the region have proven more feasible than others.

Regionalism in East Asia - Fu-kuo Liu - 2013-10-18
Regional cooperation and integration have emerged as key issues for East Asia following the financial crisis. This book explores these issues, and examines the degree to which a new paradigm is emerging. It reviews the evolution of the concepts and practices of regionalism in East Asia, and considers the factors which are shaping new patterns of regional co-operation and integration. It includes discussions of historical developments, economic co-operation, socio-political
assesses the role of regional security. It considers the role of those states, including China and Japan, which have distinctive approaches to international relations, and assesses the role of regional international bodies such as ASEAN.

It reviews the evolution of the concepts and practices of regionalism in East Asia, and considers the factors which are shaping new patterns of regional co-operation and integration. It includes discussions of historical developments, economic co-operation, socio-political factors, and defence and security. It considers the role of those states, including China and Japan, which have distinctive approaches to international relations, and international bodies such as ASEAN.

**Maritime Security between China and Southeast Asia** - Liselotte Odgaard - 2017-03-02
Arguing that security relations between China and Southeast Asia are profoundly affected by disputes over maritime space and territory in the South China Sea, the author demonstrates that the primacy of strategic competition over strategic partnerships promotes the emergence of a structure of deterrence, encouraging South East Asia to side with the United States to balance the military power of China. Combining the concepts of international disputes and order, the book establishes a framework designed to focus on periods of transition where international regulatory mechanisms are out of step with developments in the security environments of states. Features include: - Substantial evidence that strategic competition between the United States, China and
international disputes and stability. - A comprehensive account of military, diplomatic, economic, historical and legal aspects of security environments of states. Suitable for scholars and graduate students of international relations, international law, security studies, conflict management and regionalism, it will also be invaluable supplementary reading for undergraduate courses.

**China and India** - Chris Ogden - 2017-05-15

China and India are becoming increasingly influential, powerful and prominent countries – but what kind of states do their leaders and people wish them to become?
particular their shared status major Western entities or like something altogether different, hence changing the very nature of international affairs? And as the Asian twenty-first century takes shape, how will these dynamics affect the wider geopolitical landscape and the balance of power? In this in-depth study, Chris Ogden evaluates the prospective impact of China and India upon the definition and nature of great power in the contemporary world. Whilst many contend that they will rise in a similar way to current and previous great powers – namely via traditional material, economic and military measures – Ogden explores the extent to which domestic political and cultural values as well as historical identities and perceptions are also central driving forces behind their common status, ambitions and worldviews. In so doing, he offers a new and comprehensive analysis of these two countries' past, contemporary and future global significance, in as the world's first such post-imperial great powers.

The Security Dilemmas of Southeast Asia - A. Collins - 2000-08-17
The Security Dilemmas of Southeast Asia utilises a key security concept to examine one of the most dramatic regions of the world. Focusing on ethnic tensions, intra-ASEAN rivalries and the emergence of Chinese hegemony, the security dilemma is used to provide insights into a wide range of the region's contemporary security issues. In addition, the book expounds upon some of the new uses of the security dilemma, exploring both its applicability to ethnic tensions and a new variant, a state-induced security dilemma.

Maritime Security in Southeast Asia - Kwa Kwa Chong Guan - 2007-05-07
This book confronts both the maritime security challenges and responses. In Southeast Asia, maritime security has, over the last twenty years,
importance, due to the Law of the Sea convention, which has resulted in a 200 nautical mile Exclusive Economic Zones (EEZs). As well as traditional security threats to maritime security, there has also emerged a range of non-traditional threat, such as those emanating from piracy and international terrorism that spill over into the maritime domain. Events such as September 11th, and the designation of Southeast Asia as a 'second front' in the war against terrorism, have resulted in the growing realization that multilateral security cooperation is required in order to better manage emerging security threats. Expert contributors to this book identify the nature of the maritime security problem and critically evaluate the various responses with an eye to improving the management of prevailing and emerging security threats. This book will be an invaluable resource to academics, policy analysts, legislators and students interested in security issues in Southeast Asia.

Maritime Security in Southeast Asia - Kwa Kwa Chong Guan - 2007-05-07
This book confronts both the maritime security challenges and responses. In Southeast Asia, maritime security has, over the last twenty years, taken on a much greater importance, due to the Law of the Sea convention, which has resulted in a 200 nautical mile Exclusive Economic Zones (EEZs). As well as traditional security threats to maritime security, there has also emerged a range of non-traditional threat, such as those emanating from piracy and international terrorism that spill over into the maritime domain. more terrorist attacks. Yet evaluate the various responses with an eye to improving the management of prevailing and emerging security threats. This book will be an invaluable resource to academics, policy analysts, legislators and students interested in security issues in Southeast Asia.

Asia-Pacific Security - David W Lovell - 2003
"Since September 11, 2001, our newspapers have been filled with the "war on terror"; our governments have mobilized their resources for "homeland security"; and people everywhere are braced for more terrorist attacks. Yet while the new threat is genuine, w"

Rethinking Japanese Security - Peter J. Katzenstein - 2008-03-11
Since the unexpected end of the Cold War, standard arguments about power politics can no longer be adopted uncritically. This has led to a renewed interest in Japan’s unusually peaceful security policy. Japan’s championing of "comprehensive security" is central to this collection. Peter J. Katzenstein’s essays explore this concept which not only encompasses traditional military concerns but also domestic aspects of security. The book's focus on counter-terrorism and national security highlights a policy approach which, over decades, Japan has developed with political patience and diplomatic finesse. These essays advocate an eclectic approach that helps in recognizing new questions and that seek to combine elements from different analytical perspectives in the
Rethinking Japanese Security - Peter J. Katzenstein - 2008-03-11
Since the unexpected end of the Cold War, standard arguments about power politics can no longer be adopted uncritically. This has led to a renewed interest in Japan’s unusually peaceful security policy. Japan’s championing of "comprehensive security" is central to this collection. Peter J. Katzenstein’s essays explore this concept which not only encompasses traditional military concerns but also domestic aspects of security. The book's focus on counter-terrorism and national security highlights a policy approach which, over decades, Japan has developed with political patience and diplomatic finesse. These essays advocate an eclectic approach that helps in recognizing new questions and that seek to combine elements from different analytical perspectives in the exploration of novel lines of argument. Additionally, the book features an entirely new, substantial introduction that explores and elaborates the themes of the collection while bringing it up to date. This collection will be of significant interest to students and scholars of Japanese politics, security studies and international relations.

Non-Traditional Security in Asia - Ralf Emmers - 2017-03-02
The security issues confronting Asia are both complex and diverse. Given the increasing trend towards an expanding security agenda beyond the military dimension of inter-state relations, this volume provides an extensive study of emerging non-traditional challenges to this region. New realities and new
challenges have come to the fore including environmental degradation, illegal immigration, infectious diseases, transnational crime, poverty and underdevelopment. Drawing upon the concepts of securitization and de-securitization, this book brings together regional perspectives from across Asia to examine how these challenges are perceived and managed. It is a valuable contribution to both security and Asian studies and will be ideally suited to those interested in security studies, international relations and development studies.

Non-Traditional Security in Asia - Ralf Emmers - 2017-03-02
The security issues confronting Asia are both complex and diverse. Given the increasing trend towards an expanding security agenda beyond the military dimension of inter-state relations, this volume provides an extensive study of emerging non-traditional challenges to this region. New realities and new
the region itself. It shows how security policy within the Association of Southeast Asian Nations (ASEAN). The book discusses domestic challenges for human security including the insurgencies in southern Thailand, the Philippines and Indonesia. Transnational security issues such as terrorism, drugs, human trafficking and the situation in Burma are explored by the author, and the ‘ASEAN’ way of contrasting the values and approaches of Southeast Asian countries with those in the West is assessed. By focusing on the ongoing changes and efforts to achieve human security in Southeast Asia, this book contributes to theoretical debates on human security as well as regional studies on Southeast Asia.

**Human Security in Southeast Asia** - Yukiko Nishikawa - 2010-09-13
There is a growing interest in human security in Southeast Asia. This book firstly explores the theoretical and conceptual basis of human security, before focusing on human security has been taken up as a central part of security policy in individual states in Southeast Asia, as well as in the regional security policy within the Association of Southeast Asian Nations (ASEAN). The book discusses domestic challenges for human security including the insurgencies in southern Thailand, the Philippines and Indonesia. Transnational security issues such as terrorism, drugs, human trafficking and the situation in Burma are explored by the author, and the ‘ASEAN’ way of contrasting the values and approaches of Southeast Asian countries with those in the West is assessed. Issues previously considered social or public are now viewed as security issues. Food production is now analyzed in the context of food security and environmenta

**Japan, Australia and Asia-Pacific Security** - Brad Williams - 2006-09-27

The book provides an absorbing account of the evolution of a key axis of regional stability - defence contacts between Japan and Australia, tracing the relationship from the early post-war period to the post-9/11 present. Though most works have focused on their economic nexus, Japan and Australia’s defences and security ties have assumed increasing importance since the mid-1990s. With problems such as North Korea’s nuclear program and the China-Taiwan standoff threatening regional stability, the two countries have sought to strengthen bilateral relations, and indications are that this relationship is likely to grow in the future. Japan, Australia and Asia-Pacific Security explores the evolution of their relationship in the broader context of Asia-Pacific security, addressing regional, sub-regional and transnational issues. This captivating book will be welcomed by those with an interest in Asian politics, international relations, and
security, addressing regional, sub-regional and transnational issues. This captivating book will be welcomed by those with an interest in Asian politics, international relations, and security studies.

The European Union's Security Relations with Asian Partners - Thomas Christiansen - 2021
This wide-ranging book analyses EU-Asia security relations in a systematic, substantive and comparative manner. The contributions assess similarities and differences between the EU and its Asian partners with respect to levels of threat perception, policy response and security cooperation in the context of historical, institutional and external factors' such as the influence of the United States. The book presents original empirical research organised in four parts: a number of contributions providing discussions of the global context in which EU-Asia security relations develop; a

Asian Partners - Thomas Christiansen 2021

This wide-ranging book analyses EU-Asia security relations in a systematic, substantive and comparative manner. The contributions assess similarities and differences between the EU and its Asian partners with respect to levels of threat perception, policy response and security cooperation in the context of historical, institutional and external factors' such as the influence of the United States. The book presents original empirical research organised in four parts: a number of contributions providing discussions of the global context in which EU-Asia security relations develop; a series of chapters covering the range of dimensions of EU-Asian security, including both traditional and non-military aspects of security; chapters addressing the specific issues touching on bilateral relations between the EU and its partners in the Asia-Pacific region; and a final part presenting the overall findings across the various contributions together with the future outlook for EU-Asia security relations. Thomas Christiansen is Professor of Political Science and European Integration at Luiss University, Rome, Italy. He is Executive Editor of the Journal of European Integration. Emil Kirchner is Jean Monnet Chair and Emeritus Professor at the University of Essex, UK. See Seng Tan is President and CEO of International Students Inc. (ISI), a faith-based organisation in the US, and concurrently Professor of International Relations at Nanyang Technological University in Singapore.
