This practical handbook follows the successful flexicover format of Blackstone’s Police Operational Handbook and is designed to complement that publication by offering guidance on good practice in core policing areas. Aimed at junior patrol officers, student officers and trainee detectives, it draws together practical advice across a wide range of police duties, along with extracts and explanations of official policy and guidance from ACPO, the National Policing Improvement Agency and the National Centre for Policing Excellence. The Handbook provides guidance on a structured approach to police work based on established national principles and practices and is divided into four parts: Evidence Management, which offers advice on the capture and handling of evidence with chapters on crime scene management, disclosure, witness and victim management and court procedure; Knowledge-based Policing, which outlines the National Intelligence Model, the Police Code of Conduct, ACPO values, human rights, planning and risk management and dealing with the media; Neighbourhood Policing, which covers the principles and team structures, partnerships, problem-solving techniques and crime prevention; and Protective Services Policing which looks at the role of the first responder in major incident response, major crime, and civil contingencies. Commentary is accompanied with features such as boxed examples, checklists, diagrams, practical tips and flow-charts, to aid reader’s grasp of the issues.

Throughout the industrialized world, international migrants serve as nannies, construction workers, gardeners and small-business entrepreneurs. Labor Movement suggests that the international migration of workers is necessary for the survival of industrialized economies. The book thus turns the conventional view of international migration on its head: it investigates how migration regulates labor markets, rather than labor markets shaping migration flows. Assuming a critical view of orthodox economic theory, the book illustrates how different legal, social and cultural strategies towards international migrants are deployed and coordinated within the wider neoliberal project to render migrants and immigrants vulnerable, pushing them into performing distinct economic roles and into subordinate labor market situations. Drawing on social theories associated with Pierre Bourdieu and other prominent thinkers, Labor Movement suggests that migration regulates labor markets through processes of social distinction, cultural judgement and the strategic deployment of citizenship. European and North American case studies illustrate how the labor of international migrants is systematically devalued and how popular discourse legitimizes the demotion of migrants to subordinate labor. Engaging with various immigrant groups in different cities, including South Asian immigrants in Vancouver, foreigners and Spatsaussiedlerin Berlin, and Mexican and Caribbean offshore workers in rural Ontario, the studies seek to unravel the complex web of regulatory labor market processes related to international migration. Recognizing and understanding these processes, Bauder argues, is an important step towards building effective activist strategies and for envisioning new roles for migrating workers and people. The book is a valuable resource to researchers and students in economics, ethnic and migration studies, geography, sociology, political science, and to frontline activists in Europe, North America and beyond.

Blackstone’s Handbook for Policing Students 2013 - Sofia Graça - 2012-09-06
Blackstone’s Handbook for Policing Students 2013 has been developed from the best-selling Blackstone’s Student Police Officer Handbook to reflect the multitude of avenues into the police force now open to future police officers, from pre-entry courses to PCSOs and Specials. Designed specifically to meet the new requirements of police training, this book is a must-have for those embarking on a career in the police. Parts of initial police training common to all new entrants are easily identified and there are specific chapters on qualification structures and training and assessment, meeting the needs of students whether you are entering policing through pre-entry schemes or through an alternative qualification route. This new structure means it is possible for students to omit certain Parts of the Handbook whilst still meeting the mandatory requirements of the revised IPLDP Diploma in Policing. Divided into six parts, representing key stages in your progression from pre-entry (where appropriate) in Parts 1 and 2, to initial training and then confirmation, the Handbook leads you through the topics, covering theory, discussion and practice while developing skills of analysis, problem

Predict and Surveil - Sarah Brayne - 2020-10-01
The scope of criminal justice surveillance has expanded rapidly in recent decades. At the same time, the use of big data has spread across a range of fields, including finance, politics, healthcare, and marketing. While law enforcement's use of big data is hotly contested, very little is known about how the police actually use it in daily operations and with what consequences. In Predict and Surveil, Sarah Brayne offers an unprecedented, inside look at how police use big data and new surveillance technologies, leveraging on-the-ground fieldwork with one of the most technologically advanced law enforcement agencies in the world-the Los Angeles Police Department. Drawing on original interviews and ethnographic observations, Brayne examines the causes and consequences of algorithmic control. She reveals how the police use predictive analytics to deploy resources, identify suspects, and conduct investigations; how the adoption of big data analytics transforms police organizational practices; and how the knowledge and understanding necessary to undertake independent patrol in a professional and competent manner. The book identifies more than fifty different types of fraud and sets out the different strategic and tactical considerations in preventing, investigating, and disrupting each one. At the centre of the book is the Fraud Investigation Model (FIM), an effective framework encompassing multiagency working, recovery of evidence and victim management, as well as a range of useful features designed to demystify fraud terminology and provide accessible operational guidance. These include key point boxes, highlighting important learning points and investigation best practice; definition boxes, to cut through legal terminology and connect the law to everyday police work; and flow charts, which tackle complex operational and legal procedures and break them down into simple, easy to follow steps.

Investigation of Fraud and Economic Crime - Head of Training Delivery Economic Crime Academy Michael J (City of London Police) Betts - 2017-03-02
Fraud costs the United Kingdom a reported £198 billion per year and the Crime Survey for England and Wales (March 2016) estimates that there are over 5 million incidents of fraud and 2 million cyber-related crimes committed annually. Preventing and investigating fraud has become a priority for police officers and establishing successful, effective strategies to tackle this new volume crime represents a significant and persistent challenge for the police service. Investigation of Fraud and Economic Crime is written by experts from, and affiliated to, the City of London Police, the lead force for fraud in the UK and home to Action Fraud and the National Fraud Intelligence Bureau (NFIB). It offers practical, straightforward advice to law enforcement agencies dealing with fraud and economic crimes. The book identifies more than fifty different types of fraud and sets out the different strategic and tactical considerations in preventing, investigating, and disrupting each one. The War on Cops - Heather Mac Donald - 2017-09-19
Violent crime has been rising sharply in many American cities after two decades of decline. Homicides jumped nearly 17 percent in 2015 in the largest 50 cities, the biggest one-year increase since 1993. The reason is what Heather Mac Donald first identified nationally as the “Ferguson effect”: Since the 2014 police shooting death of Michael Brown in Ferguson, Missouri, officers have been backing off of proactive policing, and criminals are becoming emboldened. This book expands on Mac Donald’s groundbreaking and controversial reporting on the Ferguson effect and the criminal-justice system. It deconstructs the central narrative of the Black Lives Matter movement: that racist cops are the greatest threat to young black males. On the contrary, it is criminals and gangbangers who are responsible for the high black homicide death rate. The War on Cops exposes the truth about officer use of force and explodes the conceit of “mass incarceration.” A rigorous analysis of data shows that crime, not race, drives police actions and prison rates. The growth of proactive policing in the 1990s, along with lengthened sentences for violent crime, saved thousands of minority lives. In fact, Mac Donald argues, no government agency is more dedicated to the proposition that “black lives matter” than today’s data-driven, accountable police department. Mac Donald gives voice to the many residents of high-crime neighborhoods who want proactive policing. She warns that race-based attacks on the criminal-justice system, from the White House down, are eroding the authority of law and putting lives at risk. This book is a call for a more honest and informed debate about policing, crime, and race.

Policing and Public Trust - Eccy de Jonge - 2020-11-24
The treatment of victims and complainants by the police is examined in this pioneering new work. Case studies, based on interviews carried out at the University of Portsmouth’s Institute of Criminal Justice Studies, in the United Kingdom, reveal that victims and complainants are routinely discredited by police agencies. Whilst in the United States, victims may include anyone subjected to police interrogation, particularly those of African-American origin, complainants across the globe may include victims of rape, bereaved families, and individual American origin, complainants across the globe may include victims of rape, bereaved families, and individual police officers. The reason why certain victims and complainants are targeted by policing agencies is complex and leads to an investigation into police bias, covert practices, and one of the most common areas of policing: road death investigations. Consequently, other members of the criminal justice system, such as prosecutors, coroners, and hospital pathologists (medical examiners) are shown to often corroborate the police’s version of events compromising victims’ rights and the very nature of justice. Given recent miscarriages of justice and public relation campaigns on behalf of the police, Eccy de Jonge argues that never before has a greater openness on the inner workings of the police been needed to fully support the interests of those the criminal justice system is meant to serve.

Blackstone’s Handbook of Cyber Crime Investigation - Andrew Staniforth - 2017-03-23
