Emotional intelligence and patient-centred care

INTRODUCTION. Many health care systems around the world are emphasizing a need for more patient-centred care. Patient-centred care is a multi-dimensional concept which addresses patients' needs for information, views the patient as a whole person, promotes concordance and enhances the professional-patient relationship. However, health care professionals vary in their ability to achieve emotional intelligence in goal-setting.

Be SMART and CLEAR with emotional intelligence in goal-setting

Jan 23, 2017 · More than SMART. I would like to add something to the S.M.A.R.T. process. I would like to emphasize what I consider to be missing: the human and emotional sides of how we get things done. The SMART principles appear primarily cognitive to me, and that leaves us needing additional elements to our goal-setting process, which are perhaps less tangible but equally important; here are ...
