Public Witness - Camilla J. Kalt - 2004
- In 1982 the Catholic bishops of the United States began issuing joint pastoral letters at periodic intervals, intending the letters to be missions directed to validating patriotism and gathering the support of the faithful. Today the U.S. bishops continue to issue such letters, which, along with the letters that preceded them, explain the historic conditions confronting American Catholics. Public Witness: The Pastoral Letters of the American Catholic Bishops allows readers to learn of the highlights and obscure portions of the letters without reading through several volumes of Victorian prose. While viewing the letters as a stable genre that evolves to accumulate change in form and purpose, Kalt provides historical background, a summary, and a rhetorical analysis of the pastoral letters. The origin of the practice, the production of the letters, and the reception of the letters by the public and press are explained. Well-documented and accessible, Public Witness is suited for the scholar and the general audience. Chapters are: “Frontiers and Forebears: 1792-1834,” “The Twentieth Century: 1919-1986,” “The Challenges of Peace: “Economic Justice for All,” “The Pastoral That Wasn’t,” and “Contributions to Public Discourse.”

- Eclipse of Justice - George E. McCarthy - 2008-12-21
- A sociologist and a church historian provide a probing scholarly critique of Economic Justice for All, the American bishops' pastoral letter on Catholicism and the U.S. economy. McCarthy and Rhodes examine the letter's focus on poverty, inequality, and powerlessness in American society. They review classical concepts of social ethics and economic justice as applied by the bishops to analyze the political, social, and economic institutions of American. By examining reactions to the letter from both the political left and right, Eclipse of Justice opens up the full range of debate about the nature of social ethics. The first part of Eclipse of Justice presents the moral dilemma created by the bishops' critique of liberalism (they pronounced it a social and moral scandal) and explores the antecedents—papal, episcopal, and lay—that provided the ideas and vocabulary for the bishops' letter. The second part analyzes the pastoral letter and locates it within the larger context of debates about economic structures in modern liberalism. The third part examines attempts of the bishops to relate Christian social doctrine to international political and economic issues, and probes the contributions of liberation theology and dependency theory.

Revising the Love for Economic Justice - Rosneath Ousewares-Lowtoo - 2021-09-15
- In this book, Rosneath Ousewares-Lowtoo explores ways to reframe the cultural preference for utility and wealth over the democratic ideals of justice and civic friendship. She argues that economics and markets can be legitimately subordinated to the ideal of fellowship because human experience reveals love as the telos of friendship. Environmentalism and Economic Justice - Laura Pulido - 1996-02-01
Ecological crises are caused not only by lobbyists or hired hands. While mainstream environmentalism is usually characterized by well-financed, highly structured organizations, grassroots efforts for environmental justice are often fought by poor or minority communities. Grassroots, Environmentalism, Economic Justice is one of the first books devoted to Chicanx environmental issues and is a study of U.S. environmentalism in transition as seen through the contributions of people of color. It elucidates the various forces driving and shaping two important examples of environmental organizing: the 1965-71 pesticide campaign of the United Farm Workers of America (UFW) and the 1960s-80s Chicano movement. The UFW example is one of workers highly marginalized by racism, whose struggle—along with the successful boycott of California grapes—resulted in boycotts of produce at the national level. The case of the growing cooperative Canaveral Del Sur makes clear that grassroots organizing can empower communities of color to win rights and improve their lives. The book points up the need for the economic justice movement to adopt a strategy of organizing that is environmental justice, an economic justice movement with an explicit economic and ecological agenda. In addition, the book offers an analysis of the role of the Church to develop a movement that is truly inclusive.

This book offers a moral framework for agricultural issues today, and suggests an action agenda for all to follow, based on Catholic social teachings.

The Moral Measure of the Economy - Chuck Collins - 2007-01-01
In this clear and provocative book, Chuck Collins and Mary Wright draw on principles of Catholic Social Teaching to evaluate our economy and lay out practical steps toward establishing an economy "as if people mattered." They share powerful stories of people who are fighting for a more just and sustainable economy. The book challenges readers to rethink the foundations of our economy and to work toward a more just and sustainable one.

Mercy in Action - Thomas Massaro - 2018-02-23
Since his election in 2013, Pope Francis has tackled many issues of urgent reform within the church. Mercy in Action explores Pope Francis’s efforts to renew Catholic social teaching—the guidance the church offers on matters that pertain to social justice in the world. The book examines what Pope Francis has said, done, and written on six critical social issues today—economic inequality, worker justice, preserving the environment, healthy family life, the plight of refugees, and peacemaking. The book shows how Francis’s teaching is ushering a new direction in Catholic social thought and practice. Wherever possible, this book connects Francis’s teaching to the work of scholars and practitioners in the area of social justice. The result is a volume that engages with unexplored workers to writing an encyclical addressing environmental degradation and climate change—Pope Francis has worked to update the church’s message of social justice and mercy. The book also reflects on the importance of economic inequality, worker justice, preserving the environment, healthy family life, the plight of refugees, and peacemaking.

Speak Up for Just War or Pacifism - Paul Ramsey - 2016-03-03
This searching critique of the United Methodist Bishops pastoral letter on war and peace in a nuclear age, by America a foremost Christian ethicist, espouses theological faws from which flow gaps in moral argument and strangely utopian politics. Never before has In Defense of Creation been more thoroughly analyzed. At the same time Paul Ramsey gives a full-length and detailed comparison of the United Methodist document with The Challenge of Peace by the U.S. Catholic Bishops. Issues of nuclear ethics, as seen by the leaders of two major churches, are set full in view for the first time in a single volume. This economical consultation is broadened by drawing extensively on the writings of Methodists and Catholics in various contexts. The book’s larger purpose is to constrain an encounter between Christian just-war tradition and Christian pacifism. This comparative discussion of Christian ethics should be of interest to any reader concerned about the nuclear crisis. Some of the questions considered in the book pertain to questions raised in this book, and the book’s purpose is to show the differences between the two major Christian traditions. Caring for Souls in a Neoliberal Age - Bruce Rogers-Vaughn - 2016-11-08

This volume offers a detailed analysis of how the current phase of capitalism is eating away at social, interpersonal, and psychological health. Drawing upon an interdisciplinary body of research, Bruce Rogers-Vaughn describes an emerging form of human distress—what he calls 'third order suffering'—that is rapidly becoming normative. Moreover, this new paradigm of affliction is increasingly entangled with already-existing genres of misery, such as sexism, racism, and class struggle, mutating their appearances and mystifying their intersections. Along the way, Rogers-Vaughn presents stimulating reflections on how widespread views regarding secularization and postmodernity may divert attention from contemporary capitalism as the material origin of these developments. Finally, he explores his own clinical practice, which yields clues for addressing the double unconsciousness of third order suffering and outlining a vision for caring for souls in these troubling times.
