[MOBI] Equality Tolerance And Loyalty Virtues Serving The Common Purpose Of Democracy

Equality, Tolerance, and Loyalty - Andrew R. Cecil - 1990
Supplement to The Andrew R. Cecil Lectures on Moral Values in a Free Society.

The Rise and Demise of German Statism - Gregg Kvistad - 1999-03-01
German statism as a political ideology has been the subject of many historical studies. Whereas most of these focus on theoretical texts, cultural works, and vague "traditions", this study understands German statism as a functioning logic of political membership, a logic that has helped to determine who is "in" and who is "out" with regard to the German political community. Tracing statism from the early 19th century through German unification and beyond in the 1990s, the author argues that, with its central concern for a political loyalty that is vetted "from above," it historically served the function of stabilizing the political order and containing democratic mobilization. Beginning in the 1960s, however, a mobilized German democratic consciousness "from below" gradually rejected statism as anachronistic for informing political and policy debate, and German political institutions began to respond to kind.

Political Culture in Panama - O. Pérez - 2010-12-13
The most comprehensive and empirically grounded analysis of the institutional and attitudinal factors that have shaped Panamanian politics since the 1989 U.S. invasion. Panama offers a unique opportunity to understand the long-term effects of United States policy and the challenges of building democracy after a military invasion.

Civil and Political Rights in Cameroon - Avitus Agbor - 2021-10-15
The book explores and appraises concepts related to human rights and situates them within the Cameroonian context.

Globalization and America - Angela Hattery - 2008
Hattery, Embrick, and Smith present a collection of essays that explore the ways in which issues of human rights and social inequality are shared globally. The editors focus on the United States' role in contributing to human rights violations both inside and outside its borders. Essays on contemporary issues such as immigration, colonialism, and reparations are used to illustrate how the U.S. and the rest of the world are inextricably linked in their relationships to human rights violations and social inequality.

White House Studies Compendium - Glenn P. Hastedt - 2007
The American Presidency has become one of the most powerful offices in the world with the ascendency of American power in the 20th century. ‘White House Studies Compendium’ brings together piercing analyses of the American presidency -- dealing with both current issues and historical events. The compendia are the bound issues of ‘White House Studies’ with the addition of a comprehensive subject index.

China's Global Rebalancing and the New Silk Road - B. R. Deepak - 2018-01-10
This collaborative volume discusses the One Belt One Road, or the New Silk Road, initiative of Chinese President Xi Jinping from the perspectives of the Belt and Road countries. This initiative has been viewed as a re-globalization drive by China in the backdrop of financial crisis of the West and the latter's increasingly protectionist tendencies of late. Rather than 'rebalancing' towards a certain region, this is supposed to be China’s ‘global rebalancing’ aimed at inclusiveness and a win-win partnership. The initiative has raised hopes as well as suspicions about China's goals and intentions; that is, whether this is in sync with China’s foreign policy goals, such as multipolarity, no hegemonic aspirations, and common security, or if this is an antidote to the U.S. foreign policy goals in the region, and China’s ambition to realizing its long-term vision for Asian regional and global order. In this volume, a galaxy of eminent academics from India, China, Pakistan, Uzbekistan, Germany and Southeast Asia have critically analysed
environmental economics and management it will be a major reference
corridors identified by China for policy coordination, infrastructure
connectivity, unimpeded trade, monetary circulation, and people to people
exchanges. The authors have interpreted China’s peripheral, regional as
well as global diplomacy both over land and sea. This topical volume is of
interest to scholars and students of Asian studies, China studies, Asian
history, development studies, international relations and international trade.

China’s Global Rebalancing and the New Silk Road - B. R. Deepak -
2018-01-10
This collaborative volume discusses the One Belt One Road, or the New Silk
Road, initiative of Chinese President Xi Jinping from the perspectives of the
Belt and Road countries. This initiative has been viewed as a re-
globalization drive by China in the backdrop of financial crisis of the West
and the latter’s increasingly protectionist tendencies of late. Rather than
‘rebalancing’ towards a certain region, this is supposed to be China’s ‘global
rebalancing’ aimed at inclusiveness and a win-win partnership. The
initiative has raised hopes as well as suspicions about China’s goals and
intentions; that is, whether this is in sync with China’s foreign policy goals,
such as multipolarity, no hegemonic aspirations, and common security, or if
this is an antidote to the U.S. foreign policy goals in the region, and China’s
ambition to realizing its long-term vision for Asian regional and global
order. In this volume, a galaxy of eminent academics from India, China,
Pakistan, Uzbekistan, Germany and Southeast Asia have critically analysed
every aspect of this mammoth project, including the six major economic
corridors identified by China for policy coordination, infrastructure
connectivity, unimpeded trade, monetary circulation, and people to people
exchanges. The authors have interpreted China’s peripheral, regional as
well as global diplomacy both over land and sea. This topical volume is of
interest to scholars and students of Asian studies, China studies, Asian
history, development studies, international relations and international trade.

A Primer on Environmental Decision-Making - Knut Lehre Seip -
2006-10-12
This book integrates decision-making and environmental science. For
ecologists it will bridge the gap to economics. For practitioners in
environmental economics and management it will be a major reference
book. It probably contains the largest collection available of expressions and
basic equations that are used in environmental sciences. The book is
organized in disciplines, but it also includes 13 applications that draw on all
subjects in the book, and where cross-references are extensively used. The
applications show how a range of topics in economics, social sciences and
ecology are interrelated when decisions have to be made.

Drawing on extensive written records of the thought of John Adams and
Adam Smith, the father of modern capitalism, Dr. John E. Hill argues that
these two great men advocated a balanced, values-based, and just political
economy.

Worlds of Difference - Cary J. Nederman - 2010-11-01

Worlds of Difference - Cary J. Nederman - 2010-11-01

Beyond Tolerance - Matthew Ryan Robinson - 2019-09-23
The rise of populism and nationalism in the West have raised concerns about the fragility of liberal political values, chief among them tolerance. But what alternative social resources exist for cultivating the interpersonal relationships and mutual goodwill necessary for sustainable peace? And how might the lived practices of religious communities carry potential to reinterpret or re-circuit these interpersonal tensions and transform the relationship with the cultural "other" (Fremde) from "foe" (Feind) to "friend" (Freund)? This volume contributes a unique analysis of this shifting discourse by viewing the contemporary socio-political upheaval through the lens of Friedrich Schleiermacher's theology, with a focus on the themes of friendship, interpersonal subjectivity, and sociability as a path beyond mere tolerance. Each of the essays of the volume is written by an internationally recognized scholar in the field, and the volume examines Schleiermacher's novel reflections across multiple social contexts, including North America, Great Britain, western Europe, and South Africa. As these essays demonstrate, the implications of this conversation continue to resound in contemporary religious communities and political discourse.

Value and Virtue in Public Administration - Michiel S. de Vries - 2011-10-17
A multidisciplinary analysis of the role of values and virtue in public administration, this book calls for a rediscovery of virtue. It explores ways of enabling the public sector to balance the values that are presently dominant with classic values such as accountability, representation, equality, neutrality, transparency and the public interest.

Justice, Humanity and Social Tolerance - Xunwu Chen - 2008-02-15
Justice, Humanity and Social Tolerance makes a novel statement of justice as setting human affairs right in accordance with the principles of human rights, human goods and human bonds; it explores the timely embodiments of this family of justice in our age including social toleration, and democracy.

Handbook of Research on Developing Sustainable Value in Economics, Finance, and Marketing - Akkucuk, Ulas - 2014-10-31
In an age of rising environmental concerns, it has become necessary for businesses to pay special attention to the resources they are consuming and the long-term effects of the products they are creating. These concerns,
In an age of rising environmental concerns, it has become necessary for businesses to pay special attention to the resources they are consuming and the long-term effects of the products they are creating. These concerns, coupled with the current global economic crisis, demand a solution that includes not only business, but politics, ecology, and culture as well. The Handbook of Research on Developing Sustainable Value in Economics, Finance, and Marketing provides the latest empirical research findings on how sustainable development can work not just for organizations, but for the global economy as a whole. This book is an essential reference source for professionals and researchers in various fields including economics, finance, marketing, operations management, communication sciences, sociology, and information technology.

**Handbook of Research on Developing Sustainable Value in Economics, Finance, and Marketing** - Akkucuk, Ulas - 2014-10-31

This collection of essays and personal reflections is written from a social constructivist perspective and proposes practices that promote democratic conversations regarding diversity by creating opportunities to share personal stories and to listen to other people's stories. It examines policies and practices that can either empower or stifle understanding in different situations and presents stories to serve as catalysts to promote democratic conversations and multicultural understanding in various contexts. Focuses on feminist and micro-interaction issues. Features authentic stories told in the author's own voice which paints a picture that is sometimes challenging, sometimes difficult to hear, but always meant to stimulate conversations with self and others to deconstruct and reconstruct personal notions of diversity. Presents information from a social constructivist view to support the belief that affirming diversity is an ongoing process of evaluating and reconstructing knowledge through social discourse and interactions. Addresses important questions such as "How can we build bridges and connections without being able to talk across differences?" and "How can we affirm diversity when selected views are allowed to be voiced, while others are silenced?" For educators, counselors, and social workers.

**Affirming Diversity Through Democratic Conversations** - Victoria R. Fu - 1999

This book explores the mind of our epoch, defined as the period since the Nuremberg Trial and the establishment of the United Nations in 1945. It focuses on four central philosophical ideas of our time: global justice, cosmopolitanism, crimes against humanity, and cultural toleration.
Global Justice and Our Epochal Mind - Xunwu Chen - 2019-10-23
This book explores the mind of our epoch, defined as the period since the Nuremberg Trial and the establishment of the United Nations in 1945. It focuses on four central philosophical ideas of our time: global justice, cosmopolitanism, crimes against humanity, and cultural toleration.

Policing a Safe, Just and Tolerant Society - Robert Adlam - 2004-07-01
A ground-breaking work with international contributions, including from the USA (Edwin J Delattre, Boston University, William C Heffernan, John Jay College New York, John Kleining, ditto, Alasdair MacIntyre, formerly Notre Dame, Indiana, Robert Panzerella, John Jay, Robert R Sullivan, John Jay) that looks at policing in the modern era - with all its threats to ordinary life.

Russian Conservatism - Glenn Diesen - 2021-01-16
Russian conservatism is making a forceful return after a century of experimenting with socialism and liberalism. Conservatism is about managing change by ensuring that modernization evolves organically by building on the past. Conservatism has a natural attraction for Russia as its thousand-year long history is largely characterized by revolutionary change - the destructive process of uprooting the past to give way to modernity. Navigating towards gradual and organic modernization has been a key struggle ever since the Mongols invaded in the early 13th century and decoupled Russia from Europe and the arteries of international trade. Russian history has consisted of avoiding revolutions that are either caused by falling behind on modernization or making great leaps forward that disrupts socio-economic and political traditions. Russian conservatives are now tasked with harmonizing the conservative ideas of the 19th century with the revolutionary changes that shaped Russia in the 20th century. The rise of Asia now provides new opportunities as it enables Russia to overcome its fixation on the West and develop a unique Russian path towards modernization that harmonizes its Eurasian geography and history.

Tolerance - Hans Oberdiek - 2001
Tolerance—though seen to be necessary on a world divided by deep differences—often strikes us as grudgingly given and resentfully received. Conceived more widely, however, tolerance can be seen to occupy the difficult, and contested, terrain between merely putting up with and accepting others.
The Miracle! In this book Nicholas presents you a practical, unique, difficult, and contested, terrain between merely putting up with and accepting others.

**Ethics** - Salem Press - 1994
The first set (and a dandy one) in Magill’s new Ready Reference series of sets, this three-volume work contains 819 alphabetically arranged articles ranging in length from 250 to 3,000 words and covering a wide variety of ethics-related topics. Unlike most other encyclopedias of ethics, this set includes many articles which deal with applied ethics, addressing such areas of ethical inquiry as animal rights, bioethics, environmental ethics, political and judicial ethics, the ethics of science and computing, civil and human rights, military ethics, the ethics of sex and gender, and the ethics of art and censorship. In the more traditional areas of religious and philosophical ethics, it redresses the privileging of the Judeo-Christian tradition in the West by the inclusion of topics taken from the religions and cultures of India, East Asia, and other non-Western areas of the globe. **Actual Affirmations (1820 +) to Center Your Marriage on Christ** - Nicholas Mag -
subliminal, very simple, detailed method of how to Center Your Marriage on Christ. You will feel the effects immediately and the results will appear very quickly! So it was in my case. You will not achieve fulfillment and happiness until YOU become the architect of your own reality. Imagine that with a few moments each day, you could begin the powerful transformation toward complete control of your own life and well being through this unique, subliminal method combined with positive affirmations. The order of words is extremely important for every book written by Nicholas. These are arranged to be traversed in a certain way so as to eliminate certain blockages in the human being, blockages that are bringing disease or failure on various plans. You don’t need a big chunk of your time or expensive programs. Everything is extremely simple! Health, money, prosperity, abundance, safety, stability, sociability, charisma, sexual vitality, erotic attraction, will, optimism, perseverance, self-confidence, tenacity, courage, love, loving relationships, self-control, self-esteem, enthusiasm, refinement, intuition, detachment, intelligence, mental calm, power of concentration, exceptional memory, aspiration, transcendence, wisdom, compassion. You have the ability to unlock your full inner-potential and achieve your ultimate goals. This is the age-old secret of the financial elite, world class scholars, and Olympic champions. For example, when you watch the Olympics, you'll find one consistency in all of the champions. Each one closes their eyes for a moment and clearly affirms & visualizes themselves completing the event flawlessly just before starting. Then they win gold medals and become champions. That's merely one example of how the real power of mind can elevate you above any of life’s challenges. By reading this book, you will feel totally that life deserves to be lived and enjoyed every moment and that everything that you propose for yourself becomes easy for you to fulfill. Nicholas will guide you to touch your longed-for dream and will make you see life from a new perspective, full of freshness and success. This book helps you step by step, in a natural way, in just 3 minutes a day, to change your misguided way of thinking and to Center Your Marriage on Christ. (NOTE: For good, Nicholas keep the price of the book as lower as he can, even if is a hard work behind this project. A significant portion of the earnings from the sale of the book are used for these purposes: for charity, volunteer projects, nature restoration, and other
easy for you to fulfill. Nicholas will guide you to touch your longed-for book please contact Nicholas and he will give you a free copy.) You, also have a bonus in the pages of the book that makes you live your success by doing a seemingly trivial thing. You will feel the difference. Yes. The Miracle is possible! Get Your Copy Now!

**The Political Responsibilities of Everyday Bystanders** - Stephen L. Esquith - 2011-02-28
In a world where every person is exposed daily through the mass media to images of violence and suffering, as most dramatically exemplified in recent years by the ongoing tragedy in Darfur, the question naturally arises: What responsibilities do we, as bystanders to such social injustice, bear in holding accountable those who have created the conditions for this suffering? And what is our own complicity in the continuance of such violence—and indeed, how do we contribute to and benefit from it? How is our responsibility as individuals connected to our collective responsibility as members of a society? Such questions underlie Stephen Esquith’s investigation in this book. For Esquith, being responsible means holding ourselves accountable as a people for the institutions we have built or tolerated and the choices we have made individually and collectively within these institutional constraints. It is thus more than just acknowledgment; it involves settling accounts as well as recognizing our own complicity even as bystanders.

**The Political Responsibilities of Everyday Bystanders** - Stephen L. Esquith - 2011-02-28
In a world where every person is exposed daily through the mass media to images of violence and suffering, as most dramatically exemplified in recent years by the ongoing tragedy in Darfur, the question naturally arises: What
suffering? And what is our own complicity in the continuance of such violence—indeed, how do we contribute to and benefit from it? How is our responsibility as individuals connected to our collective responsibility as members of a society? Such questions underlie Stephen Esquith’s investigation in this book. For Esquith, being responsible means holding ourselves accountable as a people for the institutions we have built or tolerated and the choices we have made individually and collectively within these institutional constraints. It is thus more than just acknowledgment; it involves settling accounts as well as recognizing our own complicity even as bystanders.

---

**Ethics** - John K. Roth - 2005
Applied ethics is the main focus of this revised edition, with a particular emphasis on current ethics issues. Includes religious issues, business and labor ethics, political and economic issues, personal and social ethics issues, and bioethics.

**Character Education** - Wouter Sanderse - 2012
Many teachers want to contribute to children’s moral development, but this desire has not always resulted in a profound grasp of what ‘moral education’ really means, why it would be desirable and how it can best be achieved. This book confronts these questions by examining what Aristotelian virtue ethics can illuminate about moral education. At the same time, it evaluates whether Aristotelian theory can still be useful for contemporary educational practice. The argument culminates in a morally justified and psychologically realistic account of how virtue can best be taught in schools. The approach, called ‘character education’, sees moral education not as enforcing rules or transferring values in separate subjects. Instead, it encourages teachers to be a ‘morally exemplary teacher’, which is revealed through all kinds of small decisions and emotional reactions. This philosophical essay takes a constructive but critical stance towards empirical research about the effectiveness of teaching methods and the realism of character traits.

**The Righteous Mind** - Jonathan Haidt - 2013
Presents a groundbreaking investigation into the origins of morality at the core of religion and politics, offering scholarly insight into the motivations behind cultural clashes that are polarizing America.

**The Righteous Mind** - Jonathan Haidt - 2013

**Table Talk** - Janet A. Flammang - 2016-06-15
Etiquette books insist that we never discuss politics during a meal. In Table Talk, Janet A. Flammang offers a polite rebuttal, presenting vivid firsthand accounts of people’s lives at the table to show how mealtimes can teach us the conversational give-and-take foundational to democracy. Delving into the ground rules about listening, sharing, and respect that we obey when
groundbreaking research, Haidt shows why liberals, conservatives, and libertarians have such different intuitions about right and wrong, and why we need the insights of each if we are to flourish as a nation. Here is the key to understanding the miracle of human cooperation and the eternal curse of moralistic aggression, across the political divide and around the world. A Vintage Shorts Selection. An ebook short.

Can't We All Disagree More Constructively? - Jonathan Haidt - 2016-10-04
As America descends deeper into polarization and paralysis, social psychologist Jonathan Haidt has done the seemingly impossible—he has explained the origins of morality, politics, and religion in a way that speaks to everyone on the political spectrum. Drawing on twenty-five years of groundbreaking research, Haidt shows why liberals, conservatives, and libertarians have such different intuitions about right and wrong, and why we need the insights of each if we are to flourish as a nation. Here is the key to understanding the miracle of human cooperation and the eternal curse of moralistic aggression, across the political divide and around the world. A Vintage Shorts Selection. An ebook short.

Paradoxes of Utopia - Juan Suriano - 2010
A social history of revolutionary ideas and lifestyles.

Paradoxes of Utopia - Juan Suriano - 2010
A social history of revolutionary ideas and lifestyles.

The Ethical Spirit of EU Law - Markus Frischhut - 2019-03-15
This open access book seeks to identify the ethical spirit of European Union (EU) law, a context in which we can observe a trend towards increasing references to the terms 'ethics' and 'morality'. This aspect is all the more important because EU law is now affecting more and more areas of national law, including such sensitive ones as the patentability of human life. Especially when unethical behaviour produces legal consequences, the frequent lack of clearly defined concepts remains a challenge, particularly against the background of the principle of legal certainty. This raises the question to which extent the content of these references is determined and
mentioned normative philosophical lens, the book also analyzes the findings question, in turn, entails addressing the following questions: In references to ethics concerning EU law, can we identify references to a particular theory of practical philosophy at all; and, if so, to one or more normative ethical theories (deontology, consequentialism, or virtue ethics)? Further, should these non-legal concepts be imported in an unaltered way (“absolute approach”), or be adapted to the legal context (“relative approach”? This book explores the different layers of EU law (primary law, agreements, secondary law, and tertiary law), including the role of ethics in EU lawmaking and in EU case law, as well as the implementation of relevant EU directives in selected Member States. In addition to the above-mentioned normative philosophical lens, the book also analyzes the findings from the legal lens of EU integration, i.e., especially EU values, human rights and the cornerstone of human dignity.

The Ethical Spirit of EU Law - Markus Frischhut - 2019-03-15
This open access book seeks to identify the ethical spirit of European Union (EU) law, a context in which we can observe a trend towards increasing references to the terms ‘ethics’ and ‘morality’. This aspect is all the more important because EU law is now affecting more and more areas of national law, including such sensitive ones as the patentability of human life. Especially when unethical behaviour produces legal consequences, the frequent lack of clearly defined concepts remains a challenge, particularly against the background of the principle of legal certainty. This raises the question to which extent the content of these references is determined and whether it is possible to identify an ethical spirit of EU law. Answering that question, in turn, entails addressing the following questions: In references to ethics concerning EU law, can we identify references to a particular theory of practical philosophy at all; and, if so, to one or more normative ethical theories (deontology, consequentialism, or virtue ethics)? Further, should these non-legal concepts be imported in an unaltered way (“absolute approach”), or be adapted to the legal context (“relative approach”? This book explores the different layers of EU law (primary law, agreements, secondary law, and tertiary law), including the role of ethics in EU lawmaking and in EU case law, as well as the implementation of relevant EU directives in selected Member States. Bureaucracy and Administration - Ali Farazmand - 2009-06-23
Bureaucracy is an age-old form of government that has survived since ancient times; it has provided order and persisted with durability, dependability, and stability. The popularity of the first edition of this book, entitled Handbook of Bureaucracy, is testimony to the endurance of bureaucratic institutions. Reflecting the accelerated globalization of corporate capitalism, cultures, and governance systems and the additional complexity in the tasks of public administrators, Bureaucracy and Administration presents a comprehensive, global perspective that highlights the dramatic changes of the last 15 years in governance, business, and public administration. Reflects Dramatic Changes in Governance, Business, and Public Administration Through articles contributed by international experts, this volume provides a thorough analysis of bureaucracies worldwide and their effect on politics, economics, and society. The book begins by exploring the historical antecedents of bureaucracy, looking at some of the great ancient civilizations and their administrative traditions, achievements, and contributions to modern administration and governance systems. In the next section, leading scholars from political science, sociology, governance, and public administration present a detailed review of theoretical and conceptual perspectives on bureaucracies and bureaucratic politics. Following an examination of bureaucracy and public management and presenting topics such as the response to Hurricane Katrina, training of bureaucrats, and ethical issues, contributors review bureaucratic politics in the Americas, Europe, the Middle East, and Asia. The book concludes with a focused analysis of bureaucracy, change, reform, and revolution, highlighting implications for future governance and administration. Comprising theoretical and empirical analyses and including perspectives which span from ancient to modern times, this volume comprehensively and authoritatively advances the knowledge of the nature, role, and function of bureaucracy as the core of sound governance and administration around the world.

Parts will make you laugh, parts will make you think, parts will make you angry, parts will make you sick. Go for it all!

The Essential Communitarian Reader - Amitai Etzioni - 1998-01-28
This outstanding new book shows why communitarian thought has had such a profound influence on contemporary American public policy, from strengthening our neighborhoods to fighting AIDS and educating our children. Edited by Amitai Etzioni, founder of the Communitarian Network and author of the best-selling books The Spirit of Community and The New Golden Rule, this comprehensive collection contains essays written by the nation's most respected thinkers. See why politicians as diverse as Vice President Al Gore and Jack Kemp view communitarian social philosophy as the most practical way of restoring America's communities and redeeming its political institutions.

Democracy at the Ballpark - Thomas David Bunting - 2021-11-01
Examines how the national pastime of baseball has the capacity to shape politics and American democracy. What is the relationship between sports and politics? Often, politics are thought to be serious, whereas sports are diversionary and apolitical. Using baseball as a case study, Democracy at the Ballpark challenges this understanding, examining politics as they emerge at the ballpark around spectatorship, community, equality, virtue, and technology. Thomas David Bunting argues that because spectators
Enhancing Humanity - N. Aloni - 2007-10-01
In Jean Paul Sartre's Nausea, Roquentin feels bound to listen to the sentimental ramblings about humanism and humanity by the Self Taught Man. "Is it my fault," muses Roquentin, "in all he tells me, I recognize the lack of the genuine article? Is it my fault if, as he speaks, I see all the humanists I have known rise up? I have known so many ofthem!" And then he lists the radical humanist, the so called "left" humanist, and Communist Humanist, the Catholic humanist, all claiming a passion for their fellow men. "But there are others, a swarm of others: the humanist philosopher who bends over his brothers like a wise older brother with a sense of his responsibility; the humanist who loves men as they are, the humanist who loves men as they ought to be, the one who wants to save them with their consent, and the one who will save them in spite of themselves. . . ." Quite naturally, the skeptical Roquentin ends by saying how "they all hate each other: as individuals, not as men." Fully aware of the misuse and false comfort in the use of the term, Professor Aloni proceeds to restore meaning to the word as well as appropriate its educational significance. There is a freshness in this book, a restoration of a lost clarity, a regaining of authentic commitment.

**House of Lies** - Dr. Cristina Guarneri - 2017-02-27

Political lies have not only an ethical nature, but it also damages the democratic health of both the people and the politician that represents them. In order for politics to be able to represent the people, it must have the ability to instill confidence in the people. We see that just the opposite is occurring. We call such inner workings a formula to the political salesman or the House of Lies. It is honesty, loyalty, integrity, maintaining excellent behavior, austerity, and the ability to provide service as the basic virtues needed when running for public office. For without it, politics and their representatives can no longer exercise equality, tolerance, and a willingness to have dialogue and to stand out greatly among a people.

**Handbook of Comparative and Development Public Administration** - Ali Farazmand - 2001-06-29

With contributions from nearly 80 international experts, this comprehensive resource covers diverse issues, aspects, and features of public administration and policy around the world. It focuses on bureaucracy and bureaucratic politics in developing and industrialized countries and emphasizing administrative performance and policy implementation, as well as political system maintenance and regime enhancement. The book covers the history of public administration and bureaucracy in Persia, Greece, Rome, and Byzantium and among the Aztecs, Incas, and Mayas, public administration in small island states, Eastern Europe, and ethics and other contemporary issues in public administration.

**Just and Unjust Peace** - Daniel Philpott - 2015-03-01

In the wake of massive injustice, how can justice be achieved and peace restored? Is it possible to find a universal standard that will work for people of diverse and often conflicting religious, cultural, and philosophical backgrounds?
