Bring the War Home - Kathleen Belew - 2019-05
The white power movement in America wants a revolution. It has declared all-out war against the federal government and its agents, and has carried out—with military precision—an escalating campaign of terror.
The white power movement in America wants a revolution. It has declared all-out war against the federal government and its agents, and has carried out—with military precision—an escalating campaign of terror against the American public. Its soldiers are not lone wolves but are highly organized cadres motivated by a coherent and deeply troubling worldview of white supremacy, anticommunism, and apocalypse. In Bring the War Home, Kathleen Belew gives us the first full history of the movement that consolidated in the 1970s and 1980s around a potent sense of betrayal in the Vietnam War and made tragic headlines in the 1995 bombing of the Oklahoma City federal building. Returning to an America ripped apart by a war that, in their view, they were not allowed to win, a small but driven group of veterans, active-duty personnel, and civilian supporters concluded that waging war on their own country was justified. They unified people from a variety of militant groups, including Klansmen, neo-Nazis, skinheads, radical tax protestors, and white separatists. The white power movement operated with discipline and clarity, undertaking assassinations, robbery, counterfeiting, and weapons trafficking. Its command structure gave women a prominent place in brokering intergroup alliances and giving birth to future recruits. Belew’s disturbing history reveals how war cannot be contained in time and space. In its wake, grievances intensify and violence becomes a logical course of action for some. Bring the War Home argues for awareness of the heightened potential for paramilitarism in a present defined by ongoing war.

**Dispatches from the Race War** - Tim Wise - 2020-12-01

Essays on racial flashpoints, white denial, violence, and the manipulation of fear in America today. “What Tim Wise has brilliantly done is to challenge white folks' truth ... to see that they have a responsibility to do more than sit back and watch, but to recognize their own role in co-creating ... a fair, inclusive, truly democratic society.”—Michelle Alexander, author of The New Jim Crow

"Tim Wise's new book gives us the tools we need to reach people whose understanding of our country is white instead of right. And without pissing them off!"—James W. Loewen,
treatment of black and brown Me "Tim Wise's latest is more urgent than ever. Unflinchingly, and page after page, Wise calls out a brutal truth, one unwelcome to so many white people: The racial trauma playing out across this nation, hour after hour, day after day, is inflicted—be it actively or unwittingly—by them."—Heather Ann Thompson, Pulitzer Prize-winning author of Blood in the Water: The Attica Prison Uprising of 1971 and its Legacy "A white social justice advocate clearly shows how racism is America's core crisis. Wise comments on a host of events that bear witness to pervasive racism, including reactions to Barack Obama's election, Henry Louis Gates' arrest after being mistaken as a burglar, the rise of the militant tea party, the killing of Black men by police, and the acquittal of George Zimmerman in the killing of Trayvon Martin. 'The biases that ended George Floyd’s life were explicit,' Wise writes. 'Even more, they were part of an institutional and systemic process, whereby unequal

bodies and communities is normative.' A trenchant assessment of our nation’s ills."—*Kirkus Reviews, Starred Review " [Dispatches from the Race War] is a bracing call to action in a moment of social unrest."—Publishers Weekly In this collection of essays, renowned social-justice advocate Tim Wise confronts racism in contemporary America. Seen through the lens of major flashpoints during the Obama and Trump years, Dispatches from the Race War faces the consequences of white supremacy in all its forms. This includes a discussion of the bigoted undertones of the Tea Party’s backlash, the killing of Trayvon Martin, current day anti-immigrant hysteria, the rise of openly avowed white nationalism, the violent policing of African Americans, and more. Wise devotes a substantial portion of the book to explore the racial ramifications of COVID-19, and the widespread protests which followed the police murder of
Wise has brilliantly done is to accessible chapters, most written in first-person, offer an excellent source for those engaged in the anti-racism struggle. Tim Wise’s proactive approach asks white allies to contend with—and take responsibility for—their own role in perpetuating racism against Blacks and people of color. Dispatches from the Race War reminds us that the story of our country is the history of racial conflict, and that our future may depend on how—or if—we can resolve it. “To accept racism is quintessentially American,” writes Wise, “to rebel against it is human. Be human.” “Tim Wise's new book gives us the tools we need to reach people whose understanding of our country is white instead of right. And without pissing them off!”—James W. Loewen, author, Lies My Teacher Told Me

Dispatches from the Race War - Tim Wise - 2020-12
Essays on racial flashpoints, white denial, violence, and the manipulation of fears in America today.

Wilmington's Lie - David Zucchino - 2020
“By 1898 Wilmington, North Carolina, was a shining example of a mixed-race community—a bustling port city with a thriving African American middle class and a government made up of Republicans and Populists, including black alderman, police officers, and magistrates. But across the state—and the South-white supremacist Democrats were working to reverse the advances made by former slaves and their progeny. They were plotting to take back the state legislature in the November 8th election and then use a controversial editorial published by black newspaper editor Alexander Manly to trigger a "race riot" to overthrow the elected government in Wilmington. With a coordinated campaign of intimidation and violence, the Democrats sharply
individual stories of hate, fear, stuffed ballot boxes to steal the 1898 mid-term election. Two days later, more than 2,000 heavily armed white nightriders known as Red Shirts swarmed through Wilmington, terrorizing women and children and shooting at least sixty black men dead in the streets. The rebels forced city officials and leading black citizens to flee at gun point while hundreds of local African Americans took refuge in nearby swamps and forests. This brutal insurrection is the only violent overthrow of an elected government in U.S. history. It halted gains made by blacks and restored racism as official government policy, cementing white rule for another seventy years. It was not a "race riot" as the events of November 1898 came to be known, but rather a racially-motivated rebellion launched by white supremacists. In Wilmington's Lie, David Zucchino uses contemporary newspaper reports, diaries, letters, and official communications to create a gripping narrative that weaves together and brutality. This is a dramatic and definitive account of a remarkable but forgotten chapter of American history"--

A Field Guide to White
Supremacy - Kathleen Belew
- 2021-10-26
Drawing explicit lines, across
time and a broad spectrum of
violent acts, to provide the
definitive field guide for
understanding and opposing
white supremacy in America
Hate, racial violence,
exclusion, and racist laws
receive breathless media
coverage, but such attention
focuses on distinct events that
gain our attention for twenty-
four hours. The events are
presented as episodic one-
offs, unfortunate but uncanny
exceptions perpetrated by
lone wolves, extremists, or
individuals suffering from
mental illness—and then the
news cycle moves on. If we
turn to scholars and
historians for background and
answers, we often find their
knowledge siloed in distinct
academic subfields, rarely
in white supremacist actions
with legal histories, nativist
insurgencies, or centuries of
misogynist, anti-Black, anti-
Latino, anti-Asian, and
xenophobic violence. But
recent hateful actions are
deeply connected to the
past—joined not only by
common perpetrators, but by
the vast complex of systems,
histories, ideologies, and
personal beliefs that comprise
white supremacy in the
United States. Gathering
together a cohort of
researchers and writers, A
Field Guide to White
Supremacy provides much-
needed connections between
violence present and past.
This book illuminates the
career of white supremacist
and patriarchal violence in
the United States, ranging
across time and impacted
groups in order to provide a
working volume for those who
wish to recognize,
understand, name, and
oppose that violence. The
Field Guide is meant as an
urgent resource for
journalists, activists,
policymakers, and citizens,
illuminating common threads
at every scale, from hate
cries and mass attacks to
policy and law. Covering
immigration, antisemitism,
gendered violence, lynching,
and organized domestic
terrorism, the authors reveal
white supremacy as a
motivating force in manifold
parts of American life. The
book also offers a sampling of
some of the most recent
scholarship in this area in
order to spark broader
conversations between
journalists and their readers,
teachers and their students,
and activists and their
communities. A Field Guide to
White Supremacy will be an
indispensable resource in
paving the way for politics of
alliance in resistance and
renewal.

Race and America's Long War - Nikhil Pal Singh - 2017-11-07
Donald Trump’s election to the U.S. presidency in 2016, which placed control of the government in the hands of the most racially homogenous, far-right political party in the Western world, produced shock and disbelief for liberals, progressives, and leftists globally. Yet most of the immediate analysis neglects longer-term accounting of how the United States arrived here. Race and America’s Long War examines the relationship between war, politics, police power, and the changing contours of race and racism in the contemporary United States. Nikhil Pal Singh argues that the United States’ pursuit of war since the September 11 terrorist attacks has reanimated a longer history of imperial
life is at the heart of our the immediate analysis neglects longer-term accounting of how the United States arrived here. Race and America’s Long War examines the relationship between war, politics, police power, and the changing contours of race and racism in the contemporary United States. Nikhil Pal Singh argues that the United States’ pursuit of war since the September 11 terrorist attacks has reanimated a longer history of imperial statecraft that segregated and eliminated enemies both within and overseas. America’s territorial expansion and Indian removals, settler in-migration and nativist restriction, and African slavery and its afterlives were formative social and political processes that drove the rise of the United States as a capitalist world power long before the onset of globalization. Spanning the course of U.S. history, these crucial essays show how the return of racism and war as seemingly permanent features of American public and political present crisis and collective disorientation.

The Apocalypse of Settler Colonialism - Gerald Horne - 2018-03-12
"Account of of the slave trade and its lasting effects on modern life, based on the history of the Eastern Seaboard of North America, the Caribbean, Africa, and what is now Great Britain"

**Race to Revolution** - Gerald Horne
- 2014-07-08

The histories of Cuba and the United States are tightly intertwined and have been for at least two centuries. In Race to Revolution, historian Gerald Horne examines a critical relationship between the two countries by tracing out the typically overlooked interconnections among slavery, Jim Crow, and revolution. Slavery was central to the economic and political trajectories of Cuba.
and sailors, politicians and terms of each nation’s internal political and economic development and in the interactions between the small Caribbean island and the Colossus of the North. Horne draws a direct link between the black experiences in two very different countries and follows that connection through changing periods of resistance and revolutionary upheaval. Black Cubans were crucial to Cuba’s initial independence, and the relative freedom they achieved helped bring down Jim Crow in the United States, reinforcing radical politics within the black communities of both nations. This in turn helped to create the conditions that gave rise to the Cuban Revolution which, on New Years’ Day in 1959, shook the United States to its core. Based on extensive research in Havana, Madrid, London, and throughout the U.S., Race to Revolution delves deep into the historical record, bringing to life the experiences of slaves and slave traders, abolitionists and poor farmers. It illuminates the complex web of interaction and influence that shaped the lives of many generations as they struggled over questions of race, property, and political power in both Cuba and the United States.

**1919, The Year of Racial Violence** - David F. Krugler - 2014-12-08
1919, The Year of Racial Violence recounts African Americans' brave stand against a cascade of mob attacks in the United States after World War I. The emerging New Negro identity, which prized unflinching resistance to second-class citizenship, further inspired veterans and their fellow black citizens. In city after city - Washington, DC; Chicago; Charleston; and elsewhere - black men and women took up arms to repel mobs that used lynching, assaults, and other forms of violence to protect white supremacy; yet, authorities blamed blacks for the violence, leading to mass arrests and misleading news coverage. Refusing to yield, African Americans sought accuracy and fairness in the courts of public opinion and the law. This is the first account of this three-front fight - in the streets, in the press, and in the courts - one of the worst years of racial conflict in US history.

radicalized an entire generation. Piercing, empathetic, and unrestrained, Breaking Hate tells the sweeping story of the challenge of our time and provides a roadmap to overcoming it.

**Breaking Hate** - Christian Picciolini - 2020-02-25
From a onetime white-supremacist leader now working to disengage people from extremist movements, Breaking Hate is a "riveting" (James Clapper), "groundbreaking" (Malcolm Nance), "horrifying [but] hopeful" (S.E. Cupp) exploration of how to heal a nation reeling from hate and violence. Today's extremist violence surges into our lives from what seems like every direction -- vehicles hurtling down city sidewalks; cyber-threats levied against political leaders and backed up with violence; automatic weapons unleashed on mall shoppers, students, and the faithful in houses of worship. As varied as the violent acts are the attackers themselves -- neo-Nazis, white nationalists, the
define our era, laying bare the jihadists, to name just a few. In a world where hate has united communities that traffic in radical doctrines and rationalize their use of violence to rally the disaffected, the fear of losing a loved one to extremism or falling victim to terrorism has become almost universal. Told with startling honesty and intimacy, Breaking Hate is both the inside story of how extremists lure the unwitting to their causes and a guide for how everyday Americans can win them-and our civil democracy-back. Former extremist Christian Picciolini unravels this sobering narrative from the frontlines, where he has worked for two decades as a peace advocate and "hate breaker." He draws from the firsthand experiences of extremists he has helped to disengage, revealing how violent movements target the vulnerable and exploit their essential human desires, and how the right interventions can save lives. Along the way, Picciolini solves the puzzle of why extremism has come to ways in which modern society-from "fake news" and social media propaganda to coded language and a White House that inflames rather than heals-has polarized and radicalized an entire generation. Piercing, empathetic, and unrestrained, Breaking Hate tells the sweeping story of the challenge of our time and provides a roadmap to overcoming it.

**Facing Reality** - Charles Murray - 2021-06-15

The charges of white privilege and systemic racism that are tearing the country apart float free of reality. Two known facts, long since documented beyond reasonable doubt, need to be brought into the open and incorporated into the way we think about public policy: American whites, blacks, Hispanics, and Asians have different violent crime rates and different means and distributions of cognitive ability. The allegations of racism in policing, college admissions, segregation in housing, and hiring and
ignore the ways in which the problems that prompt the allegations of systemic racism are driven by these two realities. What good can come of bringing them into the open? America’s most precious ideal is what used to be known as the American Creed: People are not to be judged by where they came from, what social class they come from, or by race, color, or creed. They must be judged as individuals. The prevailing Progressive ideology repudiates that ideal, demanding instead that the state should judge people by their race, social origins, religion, sex, and sexual orientation. We on the center left and center right who are the American Creed’s natural defenders have painted ourselves into a corner. We have been unwilling to say openly that different groups have significant group differences. Since we have not been willing to say that, we have been left defenseless against the claims that racism is to blame. What else could it be? We have been afraid to

Reality is a step in that direction.

The charges of white privilege and systemic racism that are tearing the country apart float free of reality. Two known facts, long since documented beyond reasonable doubt, need to be brought into the open and incorporated into the way we think about public policy: American whites, blacks, Hispanics, and Asians have different violent crime rates and different means and distributions of cognitive ability. The allegations of racism in policing, college admissions, segregation in housing, and hiring and promotions in the workplace ignore the ways in which the problems that prompt the allegations of systemic racism are driven by these two realities. What good can come of bringing them into the open? America’s most precious ideal is what used to be known as the American Creed: People are not to be judged by where they came
contemporary police shooting come from, or by race, color, or creed. They must be judged as individuals. The prevailing Progressive ideology repudiates that ideal, demanding instead that the state should judge people by their race, social origins, religion, sex, and sexual orientation. We on the center left and center right who are the American Creed’s natural defenders have painted ourselves into a corner. We have been unwilling to say openly that different groups have significant group differences. Since we have not been willing to say that, we have been left defenseless against the claims that racism is to blame. What else could it be? We have been afraid to answer. We must. Facing Reality is a step in that direction.

Beneath the Surface of White Supremacy - Moon-Kie Jung - 2015-05-06
Racism has never been simple. It wasn't more obvious in the past, and it isn't less potent now. From the birth of the United States to the death of an unarmed Black youth, Beneath the Surface of White Supremacy investigates ingrained practices of racism, as well as unquestioned assumptions in the study of racism, to upend and deepen our understanding. In Moon-Kie Jung's unsettling book, Dred Scott v. Sandford, the notorious 1857 Supreme Court case, casts a shadow over current immigration debates and the "war on terror." The story of a 1924 massacre of Filipino sugar workers in Hawai'i pairs with statistical relentlessness of Black economic suffering to shed light on hidden dimensions of mass ignorance and indifference. The histories of Asians, Blacks, Latina/os, and Natives relate in knotty ways. State violence and colonialism come to the fore in taking measure of the United States, past and present, while the undue importance of assimilation and colorblindness recedes. Ultimately, Jung challenges the dominant racial common sense and develops new concepts and theory for
ways. State violence and resisting racisms.

**Beneath the Surface of White Supremacy** - Moon-Kie Jung - 2015-05-06

Racism has never been simple. It wasn't more obvious in the past, and it isn't less potent now. From the birth of the United States to the contemporary police shooting death of an unarmed Black youth, Beneath the Surface of White Supremacy investigates ingrained practices of racism, as well as unquestioned assumptions in the study of racism, to upend and deepen our understanding. In Moon-Kie Jung's unsettling book, Dred Scott v. Sandford, the notorious 1857 Supreme Court case, casts a shadow over current immigration debates and the "war on terror." The story of a 1924 massacre of Filipino sugar workers in Hawai'i pairs with statistical relentlessness of Black economic suffering to shed light on hidden dimensions of mass ignorance and indifference. The histories of Asians, Blacks, Latina/os, and Natives relate in knotty colonialism come to the fore in taking measure of the United States, past and present, while the undue importance of assimilation and colorblindness recedes. Ultimately, Jung challenges the dominant racial common sense and develops new concepts and theory for radically rethinking and resisting racisms.

"[Book title] ranges over the broad expanse of Oceania to reconstruct the history of "blackbirding" (slave trading) in the region. It examines the role of U.S. citizens (many of them ex-slaveholders and ex-confederates) in the trade and its roots in Civil War dislocations. What unfolds is a dramatic tale of unfree labor, conflicts between formal and informal empire, white supremacy, threats to sovereignty in Hawaii, the origins of a White Australian policy, and the rise of Japan as a Pacific power and putative protector." --Back cover.
and the United States.” In this The White Pacific - Gerald Horne - 2007-05-31 "[Book title] ranges over the broad expanse of Oceania to reconstruct the history of "blackbirding" (slave trading) in the region. War without Mercy - John Dower - 2012-03-28 WINNER OF THE NATIONAL BOOK CRITICS CIRCLE AWARD AN AMERICAN BOOK AWARD FINALIST Now in paperback, War Without Mercy has been hailed by The New York Times as “one of the most original and important books to be written about the war between Japan and the United States.” In this monumental history, Professor John Dower reveals a hidden, explosive dimension of the Pacific War—race—while writing what John Toland has called “a landmark book . . . a powerful, moving, and evenhanded history that is sorely needed in both America and Japan.” Drawing on American and Japanese songs, slogans, cartoons, propaganda films, secret reports, and a wealth of other documents of the time, Dower opens up a whole new way of looking at that bitter struggle of four and a half decades ago and its ramifications in our lives today. As Edwin O. Reischauer, former ambassador to Japan, has pointed out, this book offers “a lesson that the postwar generations need most . . . with eloquence, crushing detail, and power.”
The Rural Face of White Supremacy
Mercy has been hailed by The New York Times as “one of the most original and important books to be written about the war between Japan and the United States.” In this monumental history, Professor John Dower reveals a hidden, explosive dimension of the Pacific War—race—while writing what John Toland has called “a landmark book . . . a powerful, moving, and evenhanded history that is sorely needed in both America and Japan.” Drawing on American and Japanese songs, slogans, cartoons, propaganda films, secret reports, and a wealth of other documents of the time, Dower opens up a whole new way of looking at that bitter struggle of four and a half decades ago and its ramifications in our lives today. As Edwin O. Reischauer, former ambassador to Japan, has pointed out, this book offers “a lesson that the postwar generations need most . . . with eloquence, crushing detail, and power.”

Supremacy - Mark Roman Schultz - 2010-10-01
Now in paperback, The Rural Face of White Supremacy presents a detailed study of the daily experiences of ordinary people in rural Hancock County, Georgia. Drawing on his own interviews with over two hundred black and white residents, Mark Schultz argues that the residents acted on the basis of personal rather than institutional relationships. As a result, Hancock County residents experienced more intimate face-to-face interactions, which made possible more black agency than their urban counterparts were allowed. While they were still firmly entrenched within an exploitive white supremacist culture, this relative freedom did create a space for a range of interracial relationships that included mixed housing, midwifery, church services, meals, and even common-law marriages.

The Rural Face of White Supremacy - Mark Roman
Irish immigrants were as central to the development of the political economy of Charleston, South Carolina, as white southerners and African Americans. As artisans and entrepreneurs, foreigners occupied a middle tier in the racial and ethnic hierarchy of the South's most economically and politically important city. As agents of change, they provided a buffer, alleviating tensions between the castes until assimilating after emancipation and, in many instances, effectively embracing white supremacy. In 'Unequal Freedoms', Jeff Strickland examines the complex interplay of race, ethnicity, and class to reveal the pivotal ways in which European immigrants influenced the social, economic, and political development of the South.

Unequal Freedoms - Jeffery Glenn Strickland - 2016
During the latter half of the 19th century, German and Irish immigrants were as central to the development of the political economy of Charleston, South Carolina, as
institutionalized racism in its Americans. As artisans and entrepreneurs, foreigners occupied a middle tier in the racial and ethnic hierarchy of the South's most economically and politically important city. As agents of change, they provided a buffer, alleviating tensions between the castes until assimilating after emancipation and, in many instances, effectively embracing white supremacy. In 'Unequal Freedoms', Jeff Strickland examines the complex interplay of race, ethnicity, and class to reveal the pivotal ways in which European immigrants influenced the social, economic, and political development of the South.

Racism - George M. Fredrickson - 2015-09-15
Are antisemitism and white supremacy manifestations of a general phenomenon? Why didn't racism appear in Europe before the fourteenth century, and why did it flourish as never before in the eighteenth and nineteenth centuries? Why did the twentieth century see most extreme forms? Why are egalitarian societies particularly susceptible to virulent racism? What do apartheid South Africa, Nazi Germany, and the American South under Jim Crow have in common? How did the Holocaust advance civil rights in the United States? With a rare blend of learning, economy, and cutting insight, George Fredrickson surveys the history of Western racism from its emergence in the late Middle Ages to the present. Beginning with the medieval antisemitism that put Jews beyond the pale of humanity, he traces the spread of racist thinking in the wake of European expansionism and the beginnings of the African slave trade. And he examines how the Enlightenment and nineteenth-century romantic nationalism created a new intellectual context for debates over slavery and Jewish emancipation. Fredrickson then makes the first sustained comparison between the color-coded racism of nineteenth-century America and the antisemitic
eighteenth and nineteenth Germany around the same time. He finds similarity enough to justify the common label but also major differences in the nature and functions of the stereotypes invoked. The book concludes with a provocative account of the rise and decline of the twentieth century's overtly racist regimes--the Jim Crow South, Nazi Germany, and apartheid South Africa--in the context of world historical developments. This illuminating work is the first to treat racism across such a sweep of history and geography. It is distinguished not only by its original comparison of modern racism's two most significant varieties--white supremacy and antisemitism--but also by its eminent readability.

**Destructive Impulses**
Albert James Williams-Myers - 1995

White violence in America is a hidden issue in race relations that must be addressed before black and white can be transcended. This innovative book cites the failure to raise this issue of white violence in the race relations debate as the cause of the omnipresent gap in the search for a resolution to the race problem. Serving also as an historical essay that looks at white violence in America in its overt and secretive forms, this book suggests that allowing history to teach us how to avoid the mistakes of the past will make bridging the racial abyss more probable. Contents:

probable. Contents:

founded on the principle of timely as ever. Both pastoral and prophetic, this new edition will inspire today's readers take a deeper look at the complexities of institutional racism and address the unjust systems that continue to confound us.

The Coming Race Wars - William Pannell - 2021-06-01
In 1993, William Pannell called the evangelical church to account on issues of racial justice. Now, nearly thirty years later, his words are as timely as ever. Both pastoral and prophetic, this new edition will inspire today's readers take a deeper look at the complexities of institutional racism and address the unjust systems that continue to confound us.

White Freedom - Tyler Stovall - 2021-01-19
The racist legacy behind the Western idea of freedom The era of the Enlightenment, which gave rise to our modern conceptions of freedom and democracy, was also the height of the trans-Atlantic slave trade. America, a nation liberty, is also a nation built on African slavery, Native American genocide, and systematic racial discrimination. White Freedom traces the complex relationship between freedom and race from the eighteenth century to today, revealing how being free has meant being white. Tyler Stovall explores the intertwined histories of racism and freedom in France and the United States, the two leading nations that have claimed liberty as the heart of their national identities. He explores how French and American thinkers defined freedom in racial terms and conceived of liberty as an aspect and privilege of whiteness. He discusses how the Statue of Liberty—a gift from France to the United States and perhaps the most famous symbol of freedom on Earth—promised both freedom and whiteness to European immigrants. Taking readers from the Age of Revolution to today, Stovall challenges the notion that racism is somehow a paradox
Freedom traces the complex democratic tradition, demonstrating how white identity is intrinsic to Western ideas about liberty. Throughout the history of modern Western liberal democracy, freedom has long been white freedom. A major work of scholarship that is certain to draw a wide readership and transform contemporary debates, White Freedom provides vital new perspectives on the inherent racism behind our most cherished beliefs about freedom, liberty, and human rights.

A major work of scholarship that is certain to draw a wide readership and transform contemporary debates, White Freedom provides vital new perspectives on the inherent racism behind our most cherished beliefs about freedom, liberty, and human rights.

The Turner Diaries -
Andrew Macdonald - 1996
At 9:02 am on Wednesday April 19, 1995, two tons of explosives ripped apart the federal office building in Oklahoma City and the psyche of America. The worst case of domestic terrorism in our history, this explosion killed 169 men, women, and children. The author of this book has written, If [this book] had been available to the general public . . . the Oklahoma bombing would not have come as such a surprise. It has been considered by the Justice Department and other government agencies as the bible of right-wing militia groups, and the FBI believes it provided the blueprint for the Oklahoma City bombing. Barricade Books has published it so America can better understand the cause of racism and extremism.
Managing White
Supremacy - J. Douglas Smith - 2003-11-03
Tracing the erosion of white elite paternalism in Jim Crow Virginia, Douglas Smith reveals a surprising fluidity in southern racial politics in the decades between World War I and the Supreme Court’s 1954 Brown v. Board of Education decision. Smith draws on official records, private correspondence, and letters to newspapers from otherwise anonymous Virginians to capture a wide and varied range of black and white voices. African Americans emerge as central characters in the narrative, as Smith chronicles their efforts to obtain access to public schools and libraries, protection under the law, and the equitable distribution of municipal resources. This acceleration of black resistance to white supremacy in the years before World War II precipitated a crisis of confidence among white Virginians, who, despite their overwhelming electoral dominance, felt increasingly insecure about their ability to manage the color line on their own terms. Exploring the everyday power struggles that accompanied the erosion of white authority in the political, economic, and educational arenas, Smith uncovers the seeds of white Virginians’ resistance to civil rights activism in the second half of the twentieth century.
1920, The Black Man's Burden has been widely recognized as a prime source of education and influence in the field of African history.

**The Derrick Bell Reader** - Derrick A. Bell - 2005-08-01
An authoritative collection of writings from a prominent public intellectual.

**White Supremacy and the American Media** - Sarah D. Nilsen - 2021-11-30

This volume examines the ways in which the media, including film, television,
critical race studies and constructed and sustained a narrative of white supremacy that has entered mainstream American discourse. With chapters by today’s preeminent critical race scholars, the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape. Systematically scrutinizing every media platform, this volume provides readers with an understanding of the ways in which media has provided institutional support for white supremacist ideology, and presents them with the means to examine and analyze the persistence of these narratives within our racial discourse, thus offering the necessary knowledge to challenge and transform these racially divisive and destructive narratives. White Supremacy and the American Media will be of interest not only to scholars working in popular culture in the United States, but to those working in the fields of Film and Television Studies, Sociology, Geography, Art History, Communication and Media Studies, Cultural Studies, American Studies, Popular Culture, and Media Studies.

**White Supremacy and the American Media** - Sarah D. Nilsen - 2021-11-30
This volume examines the ways in which the media, including film, television, social media, and gaming has constructed and sustained a narrative of white supremacy that has entered mainstream American discourse. With chapters by today’s preeminent critical race scholars, the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape. Systematically scrutinizing every media platform, this
wracked by government oppression, revolutionary violence, and guerrilla war.

**The Turner Diaries**  
Andrew MacDonald - 2019-04-17  
A futuristic action-adventure novel, has been an underground bestseller for more than four decades. It chronicles a future America wracked by government oppression, revolutionary violence, and guerrilla war.

**The New Jim Crow**  
Michelle Alexander - 2020-01-07  
Named one of the most important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora. A tenth-anniversary edition of the iconic bestseller—“one of the most influential books of the past 20 years,” according to the Chronicle of Higher Education—with a new preface by the author “It is in no small part thanks to Alexander’s account that civil rights organizations such as
Black Lives Matter have focused so much of their energy on the criminal justice system.” —Adam Shatz, London Review of Books

Seldom does a book have the impact of Michelle Alexander’s The New Jim Crow. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new $100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander’s unforgettable argument that “we have not ended racial caste in America; we have merely redesigned it.” As the Birmingham News proclaimed, it is “undoubtedly the most important book published in this century about the U.S.” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

**The End of Racism** - Dinesh D'Souza - 1996-09-30
Presents the author's definition of racism, arguing that it is a cultural phenomenon specific to Western regions and tracing its history while evaluating its potential to end.

**White Identity Politics** - Ashley Jardina - 2019-02-28
Amidst discontent over America's growing diversity, many white Americans now view the political world through the lens of a racial identity. Whiteness was once
many white Americans now view the political world because of whites' dominant through the lens of a racial position and ability to claim identity. Whiteness was once the mainstream, but today a large thought to be invisible portion of whites out-group actively identify with their thought to be invisible dominant racial group and ability to claim position and ability to claim the mainstream, but today a large portion of whites actively identify with their racial group and support policies and candidates that they view as protecting whites' power and status. In White Identity Politics, Ashley Jardina offers a landmark analysis of emerging patterns of white identity and collective political behavior, drawing on sweeping data. Where past research on whites' racial attitudes emphasized out-group hostility, Jardina brings into focus the significance of in-group identity and favoritism. White Identity Politics shows that disaffected whites are not just found among the working class; they make up a broad proportion of the American public - with profound implications for political behavior and the future of racial conflict in America.

White Identity Politics - Ashley Jardina - 2019-02-28

Amidst discontent over America's growing diversity,
diagnose, and counter a **Color Line** - Thomas Borstelmann - 2001
Offers a comprehensive examination of how the Cold War intersected with the final destruction of global white supremacy. Thomas Borstelmann pays close attention to the two Souths - Southern Africa and the American South - as the primary sites of white authority's last stand.

**The Cold War and the Color Line** - Thomas Borstelmann - 2001
Offers a comprehensive examination of how the Cold War intersected with the final destruction of global white supremacy. Thomas Borstelmann pays close attention to the two Souths - Southern Africa and the American South - as the primary sites of white authority's last stand.

**Genre and White Supremacy in the Postemancipation United States** - Travis M. Foster - 2019-11-21
How are we to comprehend, system of racist subjugation so ordinary it has become utterly asymptomatic?
Challenging the prevailing literary critical inclination toward what makes texts exceptional or distinctive, *Genre and White Supremacy in the Postemancipation United States* underscores the urgent importance of genre for tracking conventionality as it enters into, constitutes, and reproduces ordinary life. In the wake of emancipation's failed promise, two developments unfolded: white supremacy amassed new mechanisms and procedures for reproducing racial hierarchy; and black freedom developed new practices for collective expression and experimentation. This new racial ordinary came into being through new literary and cultural genres—including campus novels, the Ladies' Home Journal, Civil War elegies, and gospel sermons. Through the postemancipation interplay between aesthetic conventions and social norms, genre became a major
for tracking conventionality as understood their social and political affiliations, their citizenship, and their race. Travis M. Foster traces this thick history through four decades following the Civil War, equipping us to understand ordinary practices of resistance more fully and to resist ordinary procedures of subjugation more effectively. In the process, he provides a model for how the study of popular genre can reinvigorate our methods for historicizing the everyday.

Genre and White Supremacy in the Postemancipation United States - Travis M. Foster - 2019-11-21

How are we to comprehend, diagnose, and counter a system of racist subjugation so ordinary it has become utterly asymptomatic? Challenging the prevailing literary critical inclination toward what makes texts exceptional or distinctive, Genre and White Supremacy in the Postemancipation United States underscores the urgent importance of genre

it enters into, constitutes, and reproduces ordinary life. In the wake of emancipation's failed promise, two developments unfolded: white supremacy amassed new mechanisms and procedures for reproducing racial hierarchy; and black freedom developed new practices for collective expression and experimentation. This new racial ordinary came into being through new literary and cultural genres—including campus novels, the Ladies' Home Journal, Civil War elegies, and gospel sermons. Through the postemancipation interplay between aesthetic conventions and social norms, genre became a major influence in how Americans understood their social and political affiliations, their citizenship, and their race. Travis M. Foster traces this thick history through four decades following the Civil War, equipping us to understand ordinary practices of resistance more fully and to resist ordinary procedures of subjugation more effectively.
model for how the study of popular genre can reinvigorate our methods for historicizing the everyday.
