This marked a turning point as the declaration endorsed the creation of a European security and defense policy, including a European military force capable of autonomous action. The declaration was a response to the Kosovo war in the late 1990s, in which the EU was perceived to have failed to intervene to stop the conflict. Oct 22, 2019 - the European Union (EU) was founded as a result of the Maastricht Treaty on Nov 1, 1993. It is a political and economic union between European countries that sets policies concerning the members' economies, societies, laws, and, to some extent, security. Security experts have long warned of the potential risk of large numbers of unsecured devices connected to the internet since the IoT concept first originated in the late 1990s. A number of attacks subsequently have made headlines, from refrigerators and TVs being used to send spam to hackers infiltrating baby monitors and talking to children. As it was used during the 1990s and carries over the mid-90s, it was clear that cybersecurity had to be mass-produced to protect consumers.
