Dictionary of Southern Appalachian English - Michael B. Montgomery - 2021-06-28

The Dictionary of Southern Appalachian English is a revised and expanded edition of the Weatherford Award-winning Dictionary of Smoky Mountain English, published in 2005 and known in Appalachian studies circles as the most comprehensive reference work dedicated to Appalachian vernacular and linguistic practice. Editors Michael B. Montgomery and Jennifer K. N. Heinmiller document the variety of English used in parts of eight states, ranging from West Virginia to Georgia—an expansion of the first edition's geography, which was limited primarily to North Carolina and Tennessee—and include over 10,000 entries drawn from over 2,200 sources. The entries include approximately 35,000 citations to provide the reader with historical context, meaning, and usage. Around 1,600 of those examples are from letters written by Civil War soldiers and their family members, and another 4,000 are taken from regional oral history recordings. Decades in the making, the Dictionary of Southern Appalachian English surpasses the original by thousands of entries. There is no work of this magnitude available that so completely illustrates the rich language of the Smoky Mountains and Southern Appalachia.
Americans have a fine tradition of spelling words one way and pronouncing them another. While every region of the country has contributed to this tradition, South Carolinians have elevated the practice to an art. A classic South Carolina example is the name Huger, which is pronounced YOO-JEE by natives. This dictionary includes some 400 South Carolina names, their peculiar pronunciations, and brief stories about their origins. Many folks hailing from other parts may consider these pronunciations just plain wrong, but rest assured South Carolinians will roll their eyes when those folks ask for directions to HUE-GER Street!

**South Carolina Civil Procedure** - James F. Flanagan - 2020

**South Carolina Civil Procedure** - James F. Flanagan - 2020

**North Carolina Women** - Michele Gillespie - 2014-02-15

North Carolina has had more than its share of accomplished, influential women—women who have expanded their sphere of influence or broken through barriers that had long defined and circumscribed their lives, women such as Elizabeth Maxwell Steele, the widow and tavern owner who supported the American Revolution; Harriet Jacobs, runaway slave, abolitionist, and author of Incidents in the Life of a Slave Girl; and Edith Vanderbilt and Katharine Smith Reynolds, elite women who promoted women's equality. This collection of essays examines the lives and times of pathbreaking North Carolina women from the late eighteenth century into the early twentieth century, offering important new insights into the variety of North Carolina women's experiences across time, place, race, and class, and conveys how women were able to expand their considerable influence during periods of political challenge and economic hardship, particularly over the course of the late nineteenth and early twentieth centuries. These essays highlight North Carolina's progressive streak and its positive impact on women's education—for white and black alike—beginning in the antebellum period on through new opportunities that opened up in the late nineteenth and early twentieth centuries. They explore the ways industrialization drew large numbers of women into the paid labor force for the first time and what the implications of this tremendous transition were; they also examine the women who challenged traditional gender roles, as political leaders and labor organizers, as runaways, and as widows. The volume is especially attuned to differences in region within North Carolina, delineating women's experiences in the eastern third of the state, the piedmont, and the western mountains.

The Davidson Family of Rural Hill, North Carolina - Jim Williams - 2020-01-29
John Davidson came to the North Carolina back country circa 1751 as a young man, with his sister and widowed mother. Typical of Scots-Irish settlers, they arrived with little more than basic farming tools, determined to make it on their own terms. Davidson worked hard, prospered, married well and built a plantation on the Catawba River he called Rural Hill. The Davidson's were loyal British citizens who paid their taxes and participated in colonial government. When the Crown's overbearing authority interfered, independence became paramount and Davidson and his neighbors became soldiers in the Revolutionary War. After the war Davidson managed his plantation, created shad fisheries, helped develop the local iron industry with his sons-in-law and was an early planter of cotton. His sons and grandsons, along with their slave families, continuously increased and improved the acreage and became early practitioners of scientific farming. Drawing on public documents, family papers and slave records, this history describes how a fiercely independent family grew their lands and fortunes into a lasting legacy.

John & Edward Rutledge of South Carolina - James Haw - 1997
John Rutledge (1739-1800) was a wealthy planter and successful lawyer, a leader in South Carolina's colonial Commons House of Assembly, and a delegate to the First and Second Continental Congresses. As chief executive of the state during most of the War for Independence, he was instrumental in its defense and recovery after the British conquest of 1780. One of the leading delegates to the United States constitutional convention in 1787, he served as chief justice of South Carolina, and briefly as associate justice of the U.S. Supreme Court.

Southern Writers - Joseph M. Flora - 2006-06-21
This new edition of Southern Writers assumes its distinguished predecessor's place as the essential reference on literary artists of the American South. Broadly expanded and thoroughly revised, it boasts 604 entries-nearly double the earlier edition's-written by 264 scholars. For every figure major and minor, from the venerable and canonical to the fresh and innovative, a biographical sketch and chronological list of published works provide comprehensive, concise, up-to-date information. Here in one convenient source are the South's novelists and short story writers, poets and dramatists, memoirists and essayists, journalists, scholars, and biographers from the colonial period to the twenty-first century. What constitutes a "southern writer" is always a matter for debate. Editors Joseph M. Flora and Amber Vogel have used a generous definition that turns on having a significant connection to the region, in either a personal or literary sense. New to this volume are younger writers who have emerged in the quarter century since the dictionary's original publication, as well as older talents previously unknown or unacknowledged. For almost every writer found in the previous edition, a new biography has been commissioned. Drawn from the very best minds on southern literature and covering the full spectrum of its practitioners, Southern Writers is an indispensable reference book for anyone intrigued by the subject.

This dictionary presents a balanced and objective view of South Korea, providing a long perspective and covering varied aspects of South Korean life. Domestic, political, and social events, foreign affairs, economic and cultural developments, and the men and women who have influenced the country’s history are reviewed in the more than 400 entries, many of which are new or have been updated from the first edition. The dictionary’s chronology and historical narrative, also updated, cover the entire history of Korea for the benefit of readers who have little or no knowledge of the overall history of the Korean people. The extensive bibliography has been updated to include the most current and best books, journals, and websites, making this a valuable reference source for the scholar, student, and general reader.

South Carolina in the Civil War - J. Edward Lee - 2004-11-11
Although modern authors continually produce important studies of the War Between the States, the firsthand accounts of those who were in the conflict remain the most valuable tools for understanding. This collection of letters and diaries provides glimpses into the lives of a diverse group of South Carolinians. Among the seventeen accounts are the voices of women, including a Confederate spy; of officers like Captain Obidiah Hardin, who left his beloved Palmetto State to fight and die in Virginia before the war was even a year old; and of common men, like German immigrant Augustus Franks, whose love for his adopted state compelled him to staunchly defend the Confederacy. Collected from the archives of Winthrop University, these remarkable documents give voices and faces to the war as it affected South Carolina and her citizens.

Black, Henry Campbell. A Law Dictionary. Containing Definitions of the Terms and Phrases of American and English Jurisprudence, Ancient and Modern. And Including the Principal Terms of International, Constitutional, Ecclesiastical and Commercial Law, and Medical Jurisprudence, with a Collection of Legal Maxims, Numerous Select Titles from the Roman, Modern Civil, Scotch, French, Spanish, and Mexican Law, and Other Foreign Systems, and a Table of Abbreviations. St. Paul, Minn.: West Publishing, 1910. 1314 pp. Reprinted 1995 by the Lawbook Exchange, Ltd. LCCN 97-10320. ISBN 1-886363-10-2. Cloth. $195. * The second edition of Black’s classic dictionary incorporates many new definitions and additional citations to decided cases, besides being a thorough revision of previous entries. Also included are many Latin and French terms overlooked in the first edition. Medical jurisprudence in particular is enriched, with new definitions for insanity and pathological and criminal insanity. The second edition (1910) is an essential complement to the first edition (1891) as it provides the scholar and student of law important insights into the rapid development of law at the turn of the century. The second edition is also notable for its revamped system of arrangement, with all compound and descriptive terms subsumed under their related main entries. Libraries, students, historians, and practitioners will all benefit from this historically significant research tool.

News for South Carolina Libraries - South Carolina State Library - 1969
The Dividing Paths - Tom Hatley - 1995-05-18
Focusing on the American Cherokee people and the South Carolina settlers, this book traces the two cultures and their interactions from 1680, when Charleston was established as the main town in the region, until 1785, when the Cherokees first signed a treaty with the United States. Hatley retrieves the unfamiliar dimensions of a world
assumptions about the obligations of power, the place of women, and the use of the land fed the formative cultural psychology of the colonial South. Weaving together firsthand accounts, journals, and letters to give a human reality to the facts of war, politics, and the economy, he pinpoints the revolutionary decade—from the little known but decisive Cherokee war through the Revolution itself—in which both societies struggled over their own identities. Rather than focusing on the Cherokees and Carolinians separately, this book focuses on contacts, encounters, exchanges, intersections: their mutual history. Hatley argues that Cherokee and colonial histories cannot be understood separately—that they are inextricably linked—and that the origins of distinctive features of Native American and colonial ethnicity and seemingly unrelated twists in the political history of each society are rooted in this encounter.

The Dividing Pathls - Tom Hatley - 1995-05-18
Focusing on the American Cherokee people and the South Carolina settlers, this book traces the two cultures and their interactions from 1680, when Charleston was established as the main town in the region, until 1785, when the Cherokees first signed a treaty with the United States. Hatley retrieves the unfamiliar dimensions of a world in which Native Americans were at the center of Southern geopolitics and in which radically different social assumptions about the obligations of power, the place of women, and the use of the land fed the formative cultural psychology of the colonial South. Weaving together firsthand accounts, journals, and letters to give a human reality to the facts of war, politics, and the economy, he pinpoints the revolutionary decade—from the little known but decisive Cherokee war through the Revolution itself—in which both societies struggled over their own identities. Rather than focusing on the Cherokees and Carolinians separately, this book focuses on contacts, encounters, exchanges, intersections: their mutual history. Hatley argues that Cherokee and colonial histories cannot be understood separately—that they are inextricably linked—and that the origins of distinctive features of Native American and colonial ethnicity and seemingly unrelated twists in the political history of each society are rooted in this encounter.

South Carolina - Arthur Bynum Caldwell - 1919
South Carolina - Arthur Bynum Caldwell - 1919

Les Définitions Des Droits de L'homme - Cédric Viale - 2008
This volume contains terms often found in international human rights instruments together with clear, authentic, objective and easily understandable definitions of them. Human rights are so fundamental and so important for everyone that all human rights documents should be understood by anyone, old or young, educated or uneducated, expert or non-expert. Yet many human rights conventions, declarations, instruments and volumes and papers are extremely hard to comprehend or are easily misunderstood because certain expressions and terms are not clearly defined, or are written in such a way that only those familiar with UN jargon can understand. This publication is a useful tool for those who face such difficulty in understanding UN human rights documents and other texts. The volume is easy to use, yet rich in detail, and will be an indispensable tool for practitioners, researchers and students of human rights law.

Dictionary of Early American Philosophers - John R. Shook - 2012-04-05
The Dictionary of Early American Philosophers, which contains over 400 entries by nearly 300 authors, provides an account of philosophical thought in the United States and Canada between 1600 and 1860. The label of "philosopher" has been broadly applied in this Dictionary to intellectuals who have made philosophical contributions regardless of academic career or professional title. Most figures were not academic philosophers, as few such positions existed then, but they did work on philosophical issues and explored philosophical questions involved in such fields as pedagogy, rhetoric, the arts, history, politics, economics, sociology, psychology, medicine, anthropology, religion, metaphysics, and the natural sciences. Each entry begins with biographical and career information, and continues with a discussion of the subject's writings, teaching, and thought. A cross-referencing system refers the reader to other entries. The concluding bibliography lists significant publications by the subject, posthumous editions and collected works, and further reading about the subject.

South Carolina Historical Magazine - - 1990
Senior historians and emerging scholars, including Jacquelyn Dowd Hall, John Shelton Reed, Bruce Clayton, and Anne Firor Scott, Frank L. Owsley, W. J. Cash, and C. Vann Woodward, written by 19 different researchers, both the South's distinctiveness. The volume includes 18 chapters on such notable historians as John Hope Franklin, African American history, working-class history, and ethnic studies, as well as traditional southern history. Most important, the publication makes a significant contribution to the development and ongoing study of the historiography of the South.

Reading Southern History - Glenn Feldman - 2001-10-09
This collection of essays examines the contributions of some of the most notable interpreters of southern history and culture, furthering our understanding of the best historical work produced on the region. Historian Glenn Feldman gathers together a group of essays that examine the efforts of important scholars to discuss and define the South's distinctiveness. The volume includes 18 chapters on such notable historians as John Hope Franklin, Anne Firor Scott, Frank L. Owsley, W. J. Cash, and C. Vann Woodward, written by 19 different researchers, both the more compelling themes currently and traditionally explored by southern historians. It will appeal greatly to professors and students as a valuable multidisciplinary introduction to the study of southern history, since several of the essays are on scholars who are working outside the discipline of history proper, in the fields of political science, sociology, journalism, and economics. Feldman's collection, therefore, sheds light on a broad spectrum of themes important in southern history, including the plight of poor whites, race, debates over race and class, the "reconstruction syndrome," continuity versus discontinuity in relation to blacks and whites, and regional culture and distinctiveness. Reading Southern History will be valuable to students and scholars of women's studies, African American history, working-class history, and ethnic studies, as well as traditional southern history. Most important, the publication makes a significant contribution to the development and ongoing study of the historiography of the South.

Ted Ownby. The essays examine the major work or works of each scholar under consideration as well as that scholar's overall contribution to the study of southern history. Reading Southern History will enlighten readers on the more compelling themes currently and traditionally explored by southern historians. It will appeal greatly to professors and students as a valuable multidisciplinary introduction to the study of southern history, since several of the essays are on scholars who are working outside the discipline of history proper, in the fields of political science, sociology, journalism, and economics. Feldman's collection, therefore, sheds light on a broad spectrum of themes important in southern history, including the plight of poor whites, race, debates over race and class, the "reconstruction syndrome," continuity versus discontinuity in relation to blacks and whites, and regional culture and distinctiveness. Reading Southern History will be valuable to students and scholars of women's studies, African American history, working-class history, and ethnic studies, as well as traditional southern history.
