Resistance to the Spanish-American and Philippine Wars - Charles Quience - 2017-08-07

Following the sinking of the USS Maine in Havana Harbor in 1898, pro-war arguments in the American press led public opinion to favor engaging Cuba and Spain in war. Drawing on contemporary sources, the author analyzes the anti-war arguments that preceded the Spanish-American War and continued during the war in the Philippines. News articles, letters to editors, opinion pieces and the yellow journalism of the day show how anti-war groups ultimately failed to stop a war with Spain.

The American Crucible - Donald H. Dowl - 1996-09-30

From the Kentucky backwoods to the Irish, Italian, and Jewish neighborhoods of northeastern cities. Roosevelt's vision of a hybrid and superior "American race," strengthened by war, would inspire the social, diplomatic, and economic expansionism that defined the United States in the 20th century. And yet, for all of its appeal to the civic and racial principles of inclusion, this liberal legacy was grounded in "Anglo-Saxon" culture, making it difficult in particular for Jews and Italians and especially for Asians and African Americans to gain acceptance. Gerstle weaves a compelling story of events, institutions, and ideas that played on perceptions of ethnic/racial difference. From the war years and the movement to the New Deal and Hollywood to the Cold War and the civil rights movement. We witness the rebirth of racism, the rise of American nationalism, and the Cold War. Gerstle argues that the civil rights movement and Vietnam broke the liberal nation apart, and his analysis of this period gives us a new perspective on the roots of today's political divisions. Jerónima de la Asunción (1556–1630) and her cofounders left their cloistered convent in Toledo, Spain, journeying to Mexico to board a Manila galleon on their way to the Philippines. Sor Jerónima is familiar to art historians for her portrait by Velázquez that hangs in the Prado Museum in Madrid. What most people do not know is that one of her travel companions, Sor Ana de Cristo (1565–1636), wrote a long biographical account of Sor Jerónima and their fifteen-month odyssey. Drawing from Sor Ana’s manuscript, other archival sources, and rare books, Owens’s study offers a fascinating view of travel, evangelization, and empire.

Over the Beach - Donald W. Boose - 2008
Over the Beach, written by historian and retired Army Colonel Donald W. Boose Jr., is the definitive history of the extensive but little known US Army amphibious operations during the Korean War, 1950-1953. Building on its extensive experience in World War II, the Army conducted three major landing operations during the war, including the assault at Inchon in September 1950. After the massive Chinese attacks two months later the Army executed a series of amphibious withdrawals as it fell back to more defensible positions farther down the peninsula. Throughout the war the Army also conducted a number of massive and complex over-the-shore logistical operations, as well as several amphibious special operations along the Korean littoral. Colonel Boose’s work, commissioned by DMO-ODG, Operations and Technology Office, provides the historical context for any subsequent amphibious operations on the Korean peninsula. As such, this thought-provoking study may provide insights to modern planners crafting future joint or combined operations in that part of the world. – Publisher's Description.
