Peel's Bibliography of the Canadian Prairies to 1953 -
adversity, Albertans searched for human fulfillment in their personal lives."

"David C. Jones follows the sagas of a heretic, an artist, two paladins of the people, a coal boss and his enemies, a spy, a priest, a cat, and a sage. Through his eyes we see what the human spirit does with misfortune: the spirit feeds on trouble until it grows or sickens."--BOOK JACKET.

Feasting on Misfortune - David Jones - 1998-02
"Against this background of confrontation, constraint and adversity, Albertans searched for human fulfillment in their personal lives."

"David C. Jones follows the sagas of a heretic, an artist, two paladins of the people, a coal boss and his enemies, a spy, a priest, a cat, and a sage. Through his eyes we see what the human spirit does with misfortune: the spirit feeds on trouble until it grows or sickens."--BOOK JACKET.

Powering Up Canada - R.W. Sandwell - 2016-11-01
With growing concerns about the security, cost, and ecological consequences of energy use, people around the world are becoming more conscious of the systems that meet their daily needs for food, heat, cooling, light, transportation, communication, waste disposal, medicine, and goods. Powering Up Canada is the first book to examine in detail how various sources of power, fuel, and energy have sustained Canadians over time and played a pivotal role in their history. Powering Up Canada investigates the ways that the production,
impact on human society – use, and waste issues of various forms of energy changed over time, transforming almost every aspect of society in the process. Chapters in the book's first part explore the energies of the organic regime – food, animal muscle, water, wind, and firewood--while those in the second part focus on the coal, oil, gas, hydroelectricity, and nuclear power that define the mineral regime. Contributors identify both continuities and disparities in Canada’s changing energy landscape in this first full overview of the country’s distinctive energy history. Reaching across disciplinary boundaries, these essays not only demonstrate why and how energy serves as a lens through which to better understand the country’s history, but also provide ways of thinking about some of its most pressing contemporary concerns. Engaging Canadians in an urgent international discussion on the social and environmental history of energy production and use – and its profound

Powering Up Canada details the nature and significance of energy in the past, present, and future. Contributors include Jenny Clayton (University of Victoria), George Colpitts (University of Calgary), Colin Duncan (Queen’s University), J.I. Little (Emeritus, Simon Fraser University), Joanna Dean (Carleton University), Matthew Evenden (University of British Columbia), Laurel Sefton MacDowell (Emerita, University of Toronto Mississauga), Joshua MacFadyen (Arizona State University), Eric Sager (University of Victoria), Jonathan Peyton (University of Manitoba), Steve Penfold (University of Toronto), Philip van Huizen (McMaster University), Andrew Watson (University of Saskatchewan), and Lucas Wilson (independent scholar).

King Coal - Khalehla Litschel - 2018-01-15
King Coal presents the rich history of Alberta coal mining, and the people and culture that emerged out of the industry, from the 1870s through to the modern era. King Coal invites the reader to discover Alberta's coal history, its triumphs and
King Coal presents the rich history of Alberta coal mining, and the people and culture that emerged out of the industry, from the 1870s through to the modern era. King Coal invites the reader to discover Alberta’s coal history, its triumphs and tragedies, and its legacy in the province today. Uniquely, the book’s carefully researched historical sources are augmented by a vision of the era imagined through a fictional account of the author’s coal mining ancestors, as well as a variety of poetry, song lyrics, archival and modern photographs, and appendices that contain maps, charts, and links to multiple museums and historic sites around the province. These features of the book complete a full portrait of miners and their families, presenting how they lived and worked, the innovations they created, the tragedies they endured, and the life cycles experienced in the towns where they lived—including those boom and bust towns that have disappeared from the Canadian landscape. Made to feel like insiders in a different time, readers will emerge from King Coal with an excellent view of the social side of coal mining in Alberta, a time in Canada’s history when Coal was King.

Violence in Canada - Jeffrey Ian Ross

Many people consider Canada, particularly in comparison to its southern cousin, as a "peaceable kingdom." However, as the historical record demonstrates, Canadians have never been a thoroughly non-violent people. Violence in Canada highlights from an interdisciplinary perspective the major areas and contexts where violence takes place. Consisting of thirteen contributions, the book forms an indispensable guide to the subject. All of the authors are experts in their field, many with international reputations, and are drawn from the fields of sociology, political science, history, and criminology. The foreword by Ted Robert Gurr, is followed by an historical analysis of violence on the Canadian western frontier. Other scholars describe contemporary violence: by and against indigenous peoples, women, children, and the elderly; in labor-related disputes; homicide; police and prison violence; terrorism; and discuss government responses and policy implications. Each chapter specifically addresses the sociological and political dimensions of violence. The authors make ample use of statistics and empirical research. Jeffrey Ian Ross's introduction outlines the sociopolitical dynamics of violence, and his summary chapter offers directions for future research. When the book was first published in 1995 it was widely praised by scholarly journals and has since become a standard text in the study of violence and modern Canadian cultural studies. The book is all the more valuable as its new introduction places its findings in the context of research that has been
Many people consider Canada, particularly in comparison to its southern cousin, as a "peaceable kingdom." However, as the historical record demonstrates, Canadians have never been a thoroughly non-violent people. Violence in Canada will be of interest to sociologists, criminologists, and political scientists. Jeffrey Ian Ross is an associate professor in the Division of Criminology, Criminal Justice and Social Policy and fellow with the Center for Comparative and International Law, University of Baltimore. His work has appeared in many academic journals and chapters in academic texts, as well as articles in popular magazines in Canada and the United States. He is the author, co-author, editor, or co-editor of eight books. Ted Robert Gurr is Distinguished University Professor at the University of Maryland. Among his books are Why Men Rebel and Violence in America.

**Mavericks** - Aritha Van Herk - 2010-01-12
The fifth title in our provincial histories series, Mavericks is an idiosyncratic and episodic history of what is arguably Violence in America. Canada's most unconventional province. From mapmakers to ranchers, Stampede Wrestling to Stockwell Day, acclaimed writer Aritha van Herk brings the drama and combative beauty of this irascible province to stunning life. van Herk's portrait of her home province embraces all its extremes, from deadly and spectacular weather to dinosaur graveyards, and from oil gushers and geysers to barnstorming social reformers and political haymakers. Bronc-riders of boom and bust, Alberta's people are a beguiling mixture of opinionated extremists, hardy pioneers and gentle sinners. Alberta is a province that most Canadians simply don't understand, the province most Canadians love to hate. It is regarded as a land of reckless, redneck and ignorant individualists. But it is also the province where the Famous Five fought the landmark Person's Case, giving Canadian women the same status as men in the eyes of the law, a province
province to stunning life. Albertans tolerate in their midst people whose extreme views on any manner of subjects would make them outcasts elsewhere. And Albertans practice the creed of western neighbourliness, giving assiduously to charity and always lending a hand where help is needed. They are a tough, tender bunch, squinting into the wind of determined difference. If you're an Albertan, you'll recognize yourself and your home in this book. If you're not an Albertan, this book will be an education for you. Mavericks will open your eyes to the real Alberta, as she was and is.

**Lethbridge, Its Coal Industry** - Alex Johnston - 1989

Writing Off the Rural West - Parkland Institute - 2001-09

Stephen H. Norwood has written the first systematic study of the American far left's role in both propagating and combating antisemitism.

**Ginger** - Susan Mayse - 2021-01-30

One of British Columbia's most colourful figures was Albert "Ginger" Goodwin, a slight young English immigrant who arrived on Vancouver Island in 1910 to join hundreds of others slaving in the hellholes of the Cumberland mines. What he saw there made him one of the most effective labour leaders the province has ever seen, and led to an untimely and controversial end. Susan Mayse combines the skills of novelist (Merlin's Web) and historian in this gripping biography of one of BC's most controversial labour figures, a hero among Vancouver Island miners and a dangerous subversive in the eyes of the authorities.

farmers near Lethbridge, Alberta, shopkeepers in Guelph, Ontario, and civic workers in Trois-Rivières, Québec took part in local activities that connected their everyday lives to a tumultuous period in history. Many important debates in social and cultural history are addressed, including demonization of enemy aliens, gendered fields of wartime philanthropy, state authority and citizenship, and commemoration and social memory. The making of Canada’s home front, Rutherford argues, was experienced fundamentally through local means. City parades, military send-offs, public school events, women’s war relief efforts, and many other public exercises became the parochial lenses through which a distant war was viewed. Like no other book before it, this work argues that these experiences were the true "realities" of war, and that the old maxim that truth is war’s first victim needs to be understood, even in the international and imperialistic
everyday lives to a tumultuous local phenomenon. Hometown Horizons contributes to a growing body of work on the social and cultural histories of the First World War, and challenges historians to consider the place of everyday modes of communication in forming collective understandings of world events. This history of a war imagined will find an eager readership among social and military historians, cultural studies scholars, and anyone with an interest in wartime Canada.

**Hometown Horizons**
Robert Allen Rutherdale - 2004

In Hometown Horizons, Robert Rutherdale considers how people and communities on the Canadian home front perceived the Great War. Drawing on newspaper archives and organizational documents, he examines how farmers near Lethbridge, Alberta, shopkeepers in Guelph, Ontario, and civic workers in Trois-Rivières, Québec took part in local activities that connected their period in history. Many important debates in social and cultural history are addressed, including demonization of enemy aliens, gendered fields of wartime philanthropy, state authority and citizenship, and commemoration and social memory. The making of Canada’s home front, Rutherdale argues, was experienced fundamentally through local means. City parades, military send-offs, public school events, women’s war relief efforts, and many other public exercises became the parochial lenses through which a distant war was viewed. Like no other book before it, this work argues that these experiences were the true "realities" of war, and that the old maxim that truth is war’s first victim needs to be understood, even in the international and imperialistic Great War, as a profoundly local phenomenon. Hometown Horizons contributes to a growing body of work on the social and cultural histories of the First World War, and challenges historians to
trailblazer in every sense of modes of communication in forming collective understandings of world events. This history of a war imagined will find an eager readership among social and military historians, cultural studies scholars, and anyone with an interest in wartime Canada.

Lawrence Grassi - Elio Costa - 2015

Lawrence Grassi was a the word. A working-class man of humble Italian origins who worked as a labourer and a coal miner for most of his life, Grassi had a deep passion for the Rocky Mountains. He was famous in the region for his commitment as a guide, a mountain climber, and a builder of greatly admired hiking trails. Today, in or near Canmore, his name graces a mountain, two lakes, and a school, and he is commemorated at Lake O'Hara in Yoho National Park.

In Lawrence Grassi: From Piedmont to the Rocky Mountains, Elio Costa and Gabriele Scardellato uncover the deeply private man behind this legend, from his birth in the small Italian village of Falmenta to his long and inspirational career in Canada. Using previously unexamined family letters and extensive information on Grassi’s cohort of Italian immigrants, the authors reconstruct his personal and professional life, correcting myths and connecting his story to the long history of Italian immigration to
biography of this Canadian mountain hero, Lawrence Grassi will be essential reading for those interested in the history of immigration, Lawrence Grassi - Elio Costa - 2015
