A Short Course in Photography - Barbara
London - 2014

Explores the fundamentals of photography A
Short Course in Photography: Film and
Darkroom, 9/e introduces students to the
fundamentals of photography and suggests ways
in which they might create photographs that
have meaning. With a special focus on black and
white photography, the book also explores digital
techniques and web photography resources,
equipment, cameras and camera accessories, the
exposure and development of film, and the
making and finishing of prints. All aspects of the
process are explained and clearly illustrated for
students to access. Every pair of pages covers a
complete topic along with the accompanying
illustrations, diagrams, and photos. Students will
be exposed to photographs by some of the
greatest artists, including Deborah Willis, Roe
Ethridge, Gordon Parks, Rebecca Cummins,
Javier Manzano, and Gueorgui Pinkhassov.
MyArtsLab is an integral part of the London /

assessment are part of a teaching and learning

Sketching Perspective - Ilga Leimanis - 2021-06-28

communicating an idea to others. This book explains how to tackle perspective with hand sketching - how to turn a 3D scene into a 2D drawing successfully. Written for a wide range of professionals from architects to set designers, engineers to interior designers, it explains the principles of perspective clearly and how to communicate a vision successfully. Topics covered include: materials and equipment, specifically with drawing on location in mind; observational drawing using the body, arms and hands to help understand the spaces being drawn; perspective constructions for one and two vanishing points for interior and exterior drawings; panoramic views and aerial perspective - how to approach drawing a crowded scene/location; adding detail - whether creating atmosphere and expression, or adding figures for scale and finally, advice is given on drawing imaginatively and how to visualize your thoughts confidently. It is fully illustrated with

creating atmosphere and expression, or adding urban and natural landscape.

Inner Engineering - Jaggi Vasudev (Sadhguru) - 2016

NEW YORK TIMES BESTSELLER - Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight

propagate. And that is because the only solution
In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to

for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life." The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy. Praise for Sadhguru and Inner Engineering "Contrarian and consistent, ancient and contemporary, Inner Engineering is a loving invitation to live our best lives and a profound reassurance of why and how we can."-- Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* "I am inspired by Sadhguru's capacity for joy, his exuberance for life, and the depth and breadth of his curiosity and knowledge. His book is filled with moments

In fact, yoga is a sophisticated system of self-highly recommend it for anyone interested in self-transformation."--Mark Hyman, M.D., director, Cleveland Clinic Center for Functional Medicine, and New York Times bestselling author "Inner Engineering is a fascinating read of Sadhguru's insights and his teachings. If you are ready, it is a tool to help awaken your own inner intelligence, the ultimate and supreme genius that mirrors the wisdom of the cosmos."--Deepak Chopra

It Ends with Us - Colleen Hoover - 2020-07-28
In this “brave and heartbreaking novel that digs its claws into you and doesn’t let go, long after you’ve finished it” (Anna Todd, New York Times bestselling author) from the #1 New York Times bestselling author of *All Your Perfects*, a workaholic with a too-good-to-be-true romance can’t stop thinking about her first love. Lily hasn’t always had it easy, but that’s never stopped her from working hard for the life she wants. She’s come a long way from the small town where she grew up—she graduated from

It Ends with Us - Colleen Hoover - 2020-07-28
business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily's life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He's also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn't hurt. Lily can't get him out of her head. But Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is "a glorious and touching read, a forever keeper. The kind of book that gets handed down" (USA TODAY).

Ken Light: Course of the Empire - Ken Light - 2021-08-03

A decade of mounting tension in a polarized America, from Wall Street to the rural heartland. A decade ago, Ken Light (born 1951) traveled across the United States photographing a country that he realized was the most fragile of organisms. The photographs of the earlier years in this book create the context for understanding how America lost its way. Light reached all four

race, class and political lines. We see the heartland and the coastal cities, Wall Street and rural small towns. As he continued, seismic changes erupted across America and the country descended into an age of crisis. He photographed protests and Washington politicians in Congress and the White House, climate change disasters and environmental defenders, the rise of the regime of Donald Trump, the Trump rallies and America's reactions to it all. He comprehensively probed the fractured social and economic condition, going beyond the tropes of inequality we all recite by heart to create a visual portrait of a country mired in calamity, its people deeply splintered, angry and in pain. The resulting portrait of the American social landscape is a riveting historical and visual record of a complicated country in a complicated time. It is compelling, and one of the earliest photographic accounts of an age that historians and citizens will be scrutinizing for generations to come.

Teaching Photography - Glenn Rand -
2015-02-05

The photographic community is rife with talented and creative practitioners and artists. But making great photographs does not always translate into an ability to teach effectively. This new edition of Teaching Photography approaches photographic education from a point of view that stresses the how and why of the education. It includes the resources that will inspire new and seasoned teachers to help students expand their technical and aesthetic abilities and techniques, as well as their visual literacy and the way photography fits into the wider world. Fully updated to include the online/hybrid classroom environment, collaborative learning, rubrics, and using digital technology, plus techniques for inspiring conversations and critiques.

Atomic Habits - James Clear - 2018-10-16
The #1 New York Times bestseller. Over 3 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system.

not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to:

- make time for new habits (even when life gets crazy);
- overcome a lack of motivation and willpower;
- design your environment to make

Bad habits repeat themselves again and again off course; and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

Good Morning, I Love You - Shauna Shapiro - 2020-01-28

Discover the Transformative Effects of Being Kind to Yourself “This brilliant book offers us both the science and practice of how self-kindness is the secret sauce of fulfillment, transformation, and joy.” —Lorin Roche, meditation teacher and author of The Radiance Sutras Many of us yearn to feel a greater sense

tried meditation and found it too difficult. We judge ourselves for being no good at emptying our minds (as if one ever could) or compare ourselves with yogis who seem to have it all together. We live in a steady state of “not good enough.” It does not have to be this way. In Good Morning, I Love You, Dr. Shauna Shapiro brings alive the brain science behind why we feel the way we do—about ourselves, each other, and the world—and explains why we get stuck in thinking that doesn’t serve us. It turns out that we are hardwired to be self-critical and negative! And this negativity is constantly undermining our experience of life. “It is never too late to rewire your brain for positivity—for calm, clarity, and joy,” writes Dr. Shapiro. “I know this is possible because I experienced it. Best of all, you can begin wherever you are.” In short, lively chapters laced with science, wisdom, and story, Shapiro, one of the leading scientists studying the effects of mindfulness on the brain, shows us that acting

together. We live in a steady state of “not good is the key. With her roadmap to guide you, including her signature “Good Morning, I Love You” practice, in which you deliberately greet yourself each day with these simple words, you can change your brain’s circuitry and steady yourself in feelings of deep calm, clarity, and joy. For good.

Somewhere West of Lonely - Steve Raymer - 2018-05

In his travels around the globe, National Geographic photojournalist Steve Raymer has often been the first on the scene, recording unfolding events and revealing the connections that tie us together. Raymer's photography captures the magic of beautiful vistas, the joys and struggles of everyday people living everyday lives, and the chaos brought on by natural disasters. Beyond documenting tragedies like the

and exposing the massive corruption crippling the Trans-Alaska Pipeline, his work tells a complex and wide-ranging story about life and human nature. Now, for the first time, *Somewhere West of Lonely* reveals the stories behind the camera lens in a gorgeous, intimate tour of Steve Raymer's remarkable life and reporting. Bringing together 150 photographs from countries across the globe, this incredible book reveals our world and time as it is--everyday people caught up in life-changing events; acts of resilience and corruption; and, always, lingering moments of transcendence and beauty.

Somewhere West of Lonely - Steve Raymer - 2018-05

In his travels around the globe, National Geographic photojournalist Steve Raymer has often been the first on the scene, recording unfolding events and revealing the connections that tie us together. Raymer's photography captures the magic of beautiful vistas, the joys

literally do the impossible. You can overcome lives, and the chaos brought on by natural disasters. Beyond documenting tragedies like the devastating famines in Bangladesh and Ethiopia and exposing the massive corruption crippling the Trans-Alaska Pipeline, his work tells a complex and wide-ranging story about life and human nature. Now, for the first time, *Somewhere West of Lonely* reveals the stories behind the camera lens in a gorgeous, intimate tour of Steve Raymer's remarkable life and reporting. Bringing together 150 photographs from countries across the globe, this incredible book reveals our world and time as it is--everyday people caught up in life-changing events; acts of resilience and corruption; and, always, lingering moments of transcendence and beauty.

The Wim Hof Method - Wim Hof - 2022-05-31
The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential—now in paperback. Wim Hof has a message for each of us: “You can

disease, improve your mental health and physical performance, and even control your physiology so you can thrive in freezing temperatures.” With his New York Times–bestselling debut book, *The Wim Hof Method*, this trailblazer of human potential shared a method that anyone can use—not just extreme athletes or spiritual masters—to supercharge one’s capacity for strength, health, and happiness. Now, this popular book is available in paperback. Wim Hof has become a modern legend for his astounding achievements, such as withstanding extreme temperatures, breaking world records, and running barefoot marathons over deserts and ice fields. In his gripping and passionate voice, Hof shares the story of how he developed his method, along with testimonials and new insights from university research studies on the method’s amazing results. With guidance suited for any reader—young or old, sick or healthy—you’ll learn how to harness three key elements—Cold,

strength, health, and happiness. Now, this own mind and metabolism. The most important result of Hof's method goes beyond improved health or performance—it is a path for reconnecting with your spiritual nature. "With these practices, you awaken to your inner source of power and fulfillment," he says. "You find you can control your destiny."

CRITS - Terry Barrett - 2018-10-04

CRITS: A Student Manual is a practical guide to help art and design students obtain maximum benefits from the most common method of teaching these subjects in college: the studio critique. CRITS positions studio critiques as positive, productive, and inspirational means to foster development – not occasions to be feared. It explains the requisite skills, knowledge, and attitudes for meaningful and motivational participation in critiques. CRITS teaches students the hows and whys of critiques so that they can gain enriching benefits from their instructors and peers during and after critiques. Renowned author Terry Barrett informs, guides, and reassures students on the potential value of studio critiques. Filled with real-life examples of what works well, and what doesn't, Barrett provides readers with the tools to see crits as opportunities to participate, observe, reflect, and develop – improving art and design engagement at all levels.

Florida Institute of Technology - Gordon Patterson - 2000-11

In the 1950s, East Central Florida underwent a vast transformation with the creation of the American space program. The sleepy fishing communities stretching from Titusville to Melbourne became home to an army of engineers, rocket scientists, and technicians who would soon take Florida and the nation into the missile age. With no opportunities for advanced study nearby, a handful of determined men and women launched Brevard Engineering College in 1958. In 1966, Florida's secretary of state

would soon take Florida and the nation into the name to Florida Institute of Technology. In its short history, Florida Tech has overcome formidable hurdles and succeeded in winning a place in the top ranks of scientific and technological universities. A college on the rise, Florida Tech has not only a bright future, but a rich and colorful history that has been captured in striking photographs. The exciting story of "Countdown College"-from the lift-off of Bumper 8 in 1950, which launched the space program in Florida, to the most recent high-tech additions to campus facilities-is the subject of this captivating new pictorial history.

The Digital Photography Book - Scott Kelby - 2020-06-11

techie photo speak.”

photographs using the same tricks today’s top photographers use (surprisingly, it’s easier than you’d think)!

This is a completely, totally updated version of the #1 best-selling digital photography book of all time! It’s the award winning, worldwide smash hit, written by Scott Kelby, that’s been translated into dozens of different languages.

Here’s how Scott describes this book’s brilliant premise: “If you and I were out on a shoot, and you asked me, ‘Hey, how do I get this flower to be in focus, with the background out of focus?’ I wouldn’t stand there and give you a photography lecture. In real life, I’d just say, ‘Put on your zoom lens, set your f-stop to f/2.8, focus on the flower, and fire away.’ That’s what this book is all about: you and I out shooting where I answer questions, give you advice, and share the secrets I’ve learned just like I would with a friend—without all the technical explanations and

This isn’t a book of theory—full of confusing jargon and detailed concepts. This is a book on which button to push, which setting to use, and when to use it. With over 200 of the most closely guarded photographic “tricks of the trade,” this book gets you shooting dramatically better-looking, sharper, more colorful, more professional-looking photos every time.

Each page covers a single concept that makes your photography better. Every time you turn the page, you’ll learn another pro setting, tool, or trick to transform your work from snapshots into gallery prints. If you’re tired of taking shots that look “okay,” and if you’re tired of looking in photography magazines and thinking, “Why don’t my shots look like that?” then this is the book for you.

Gillian Laub: Family Matters - - 2021-09-14

Gillian Laub's photographs of her family from the past twenty years, now collected in one volume, explore the ways society's biggest questions are revealed in our most intimate relationships. *Family Matters* zeroes in on the artist's family as an example of the way Donald Trump's knack for sowing discord and division has impacted communities, individuals, and households across the country. As Laub explains, "I began to unpack my relationship to my relatives--which turned out to be much more indicative of my relationship to the outside world than I had ever thought, and the key to exploring questions I had about the effects of wealth, vanity, childhood, aging, fragility, political conflict, religious traditions, and mortality." These issues became tangible in 2016, when Laub and her parents found themselves on opposing sides of the most divisive

the country. As Laub explains, "I began to unpack further exacerbated in the lead-up to the 2020 election, in the wake of a global pandemic and protests in support of Black Lives Matter. Family Matters reveals Laub's willingness to confront ideas of privilege and unity, and to expose the fault lines and vulnerabilities of her relatives and herself. Ultimately, Family Matters celebrates the resiliency and power of family--including the family we choose--in the face of divisive rhetoric. In doing so, it holds up a highly personalized mirror to the social and political divides in the United States today.

Photography Masterclass - Alondra Gerke -
2019-12-19

The Photography Masterclass book will teach you how to take amazing images and even sell them, whether you use a smartphone, mirrorless or DSLR camera. Photography Masterclass is a book designed to teach you the ins and outs of photography, even if you have little to no experience with it, to help create beautiful images that help you stand out from the crowd. Master Photography Techniques to Create Extraordinary Images! While there are plenty of digital photography books that focus on specific styles or how to use gear, it's hard to find a comprehensive book like this one, which is for beginner to advanced photographers. This book is designed for all levels of photographers who want to improve their skills, take stellar images, and make money with their photos - especially great for any DSLR or mirrorless camera user. This book is aimed at teaching photographers

more money. You'll start with the basics and tackle how a camera operates, the types of cameras and lenses available, and equipment you'll need for accomplishing your goals. You'll then dive into the different styles of photography you can focus on. You'll learn about your camera settings (DSLR, mirrorless, or other), including how to shoot in manual mode. You'll use stabilization tools and master how to properly compose and light a scene. You'll even learn how to take great photos with a smartphone or tablet and how to edit images. So you can sell your photos, you'll learn how to brand yourself, create a portfolio and website, and find freelance work or a full-time position. Gain insight into licensing, fair use, and more. And if you want to get into wedding photography, you'll learn how to start your own business. By the end of Photography Masterclass book, your confidence as a photographer will soar. You'll have a thorough understanding of your camera and gear so you

great for any DSLR or mirrorless camera user. unforgettable photos and start a profitable photography career.
