Connie Law - Tana Sherratt - 2016-09-16

Giving Connie life was one thing her mother, Mary Law, could do for her daughter on that desperately sun-drenched day in 1835. Her bedroom door barely kept the sand out and couldnt mask the drunken party below or Marys weak screams and anguished cries. Zack Law was furious when he learned Mary had delivered a beautiful, healthy girl that day. He cussed at Mary, Connie, and the doctor then abruptly rode away. Here then is the story of Connie Law, the prettiest female most men have ever seen. Some said she was ruthless, a killer, and too bold; others found her a gentle and caring soul. Her hair was golden sunlight, and her eyes were the color of the sea. She rode the winds of hell to rewrite her history. Connie was quiet. She could fool some, but make no mistake, she was good with her guns. Mary Law left her home in Maine and traveled to Texas with her young husband and would become a prisoner of his deceit and treachery. She gave Zack five sons, and her husband would own them all. Zackary Law had a hatred for women, and if he loved anything, it was money. Connie and Mary

were killed in an Indian attack, which would change the town of Murder Creek forever. The raid took Connie and several other girls from their homes and families. They would learn the laws of survival or die.

Churchill's Navy - Brian Lavery - 2016-06-02

In this remarkable book, now reissued in paperback, Brian Lavery examines every aspect of the Royal Navy, both ashore and at sea, during the Second World War, and casts a lucid eye over the strengths and weaknesses of an organisation that was put under acute strain during the period, yet rose to the challenge with initiative and determination. Divided into twelve sections, the book delves into the structure of naval power from the Board of Admiralty and shore commands to officers and crews, their recruitment and training, daily life and discipline. The roles of the Reserves, Merchant Navy, Royal Marines and Wrens within this structure are also explained. Developments in ship design and technology, as well as advances in intelligence, sensors and armament are all discussed and set in context. The different divisions are dealt with one by one, including the Submarine Service, Fleet Air Arm, Coastal Forces, and Combined Operations. The text is complemented by over 300 illustrations and the personal accounts of those who served.

Bomb Girls - Britain's Secret Army: The Munitions Women of World War II - Jacky Hyams - 2013-08-05

They were the unsung heroines of World War II; the wives, mums and teenage girls, all 'doing their bit' for the war effort, clocking in daily to work in cast munitions factories, helping make the explosives, bullets and war machines that would ensure victory for Britain. It was dangerous, dirty and exhaustive work. They worked round the clock, often exposed to toxic, lethal chemicals. A factory accident could mean blindness, loss of limbs - or worse. Many went home with acid burns, yellow skin or discoloured hair. Others were forced to leave their loved ones and move to live with total strangers in unfamiliar surroundings. Frequently, their male bosses were coarse and unsympathetic. Yet this hidden army of nearly two million women toiled on regardless through the worst years of the war, cheerfully ignoring the dangers and the exhaustion, as bombing, rationing and the heartbreak of loss or separation took their toll on everyone in the country. Only now, all these years later, have they chosen to tell their remarkable stories. Here, in their own words, are the vivid wartime memories of the 'secret army' of female munitions workers, whose resilience and sheer grit in the face of danger has only now started to emerge. These are the intimate and personal stories of an unforgettable group of women, whose hard work and quiet courage made a significant contribution to Britain's war effort. They didn't fire the bullets, but they filled them up with explosives. And in doing so, they helped Britain win the war.

ranging overview of the factors that led to their creation, Van Slyck summer camps created? What concerns and ideals motivated their founders? Whom did they serve? How did they change over time? What factors influenced their design? To answer these and many other questions, Abigail A. Van Slyck trains an informed eye on the most visible and evocative aspect of camp life: its landscape and architecture. She argues that summer camps delivered much more than a simple encounter with the natural world. Instead, she suggests, camps provided a man-made version of wilderness, shaped by middle-class anxieties about gender roles, class tensions, race relations, and modernity and its impact on the lives of children. Following a fascinating history of summer camps and a wide-ranging overview of the factors that led to their creation, Van Slyck examines the intersections of the natural landscape with human-built forms and social activities. In particular, she addresses changing attitudes toward such subjects as children's health, sanitation, play, relationships between the sexes, Native American culture, and evolving ideas about childhood. Generously illustrated with period photographs, maps, plans, and promotional images of camps throughout North America, *A Manufactured Wilderness* is the first book to offer a thorough consideration of the summer camp environment.

Since they were first established in the 1880s, children's summer camps have touched the lives of millions of people. Although the camping experience has a special place in the popular imagination, few scholars have given serious thought to this peculiarly American phenomenon. Why were summer camps created? The Girl Who Came Through Vickery Gate - James A. Plessinger - 2017-01-23

The Girl Who Came through Vickery Gate is a true story of a rare romance that travels through a couples love and incredible life beginning from the first moment Dottie Williamson enters the gate at Kings Point Academy and meets Jim Plessinger until her last breath, when she passes through another gate. Jim and Dottie were soul mates and were happily married for almost sixty-one years. Dottie comes to the United States Merchant Marine Academy in New York to meet Jim on a blind date put in motion by a chance meeting of their fathers and attend the Saturday activities consisting of a football game, tea, and dance on October 30, 1948. When Dottie walks through Vickery Gate, Jim is done for. She saw me there, so she came up and put her right hand up and said, Im Dottie. I put my hand out and I held

the nerve to give Dottie a lingering kiss, profess his love, and propose this hand in this world and the next. I was absolutely smitten, just blown away. So much so that on that first date, the skinny young man summoned the nerve to give Dottie a lingering kiss, profess his love, and propose marriage during the last dance. Stunned, she ran. I didnt know where I was, Jim said, spending the next few days in a heartbroken stupor. I had poured out my heart. But then there came a letter from Mount Ida College, where Dottie was studying, to say that she had a wonderful time and would very much like to see him. The poor Jim met Dotties wealthy family and was surprised when she happily drove to his familys flat to meet his parents. Dating right up until Jims graduation from Kings Point, they married nine days after on December 22, 1951. This relationship survives Jim spending a year at sea; becoming a Naval Officer; unemployment; moving; the loss of their first child, Susan; having two other daughters Diane and Sally; and becoming a lawyer at almost forty years old in Connecticut and later on in California. Dottie, who never failed to get a job within an hour, managed to be a doting mother, charming hostess, and eventually a real estate agent. Then that shattering day comes. Dottie dies in Jims arms, leaving this world here on earth from complications of Alzheimers disease.

A Contemporary History of Women's Sport, Part One - Jean Williams - 2014-04-24

This book is an historical survey of women's sport from 1850-1960. It looks at some of the more recent methodological approaches to writing sports history and raises questions about how the history of women's sport has so far been shaped by academic writers. Questions explored in this text include: What are the fresh perspectives and newly available sources for the

on women's place in sporting culture and what novel approaches do they suggest? How can our appreciation of fashion, travel, food and medical history be advanced by looking at women's involvement in sport? How can we use some of the current ideas and methodologies in the recent literature on the history and sociology of sport in order to look afresh at women's participation? Jean Williams's original research on these topics and more will be a useful resource for scholars in the fields of sports, women's studies, history and sociology.
