The Swine Flu Affair - Richard E. Neustadt - 1978
In 1976, a small group of soldiers at Fort Dix were infected with a swine flu virus that was deemed similar to the virus responsible for the great 1918-19 world-wide flu pandemic. The U.S. government initiated an unprecedented effort to immunize every American against the disease. While a qualified success in terms of numbers reached-more than 40 million Americans received the vaccine-the disease never reappeared. The program was marked by complications, unforeseen side effects and a progressive loss of credibility for public health authorities. In the waning days of the flu season, the incoming Secretary of what was then the Department of Health, Education and Welfare, Joseph Califano, asked Richard Neustadt and Harvey Fineberg to examine what happened and to extract lessons to help cope with similar situations in the future. The result was their report, The Swine Flu Affair: Decision-Making on a Slippery Disease.

Contractual Indemnities - Wayne Courtney - 2014-12-01
Promises of indemnity are found in many kinds of commercial contracts, not just contracts of insurance. This book examines the nature and effect of contractual indemnities outside the insurance context. It is the first work to provide a detailed account of the subject in English law. The book presents a coherent theory of the promise of indemnity while also addressing important practical issues, such as the construction of contractual indemnities. The subject is approached from two perspectives. The foundations are laid by examining general principles applicable to indemnities in various forms. This covers the nature of indemnity promises; general principles of construction; the determination of scope; and the enforcement of indemnities. The approach then moves from the general to the specific, by examining separately particular forms of indemnity. Included among these are indemnities against liability to third parties, and indemnities against default or non-performance by third parties. The book states English law but it draws upon a considerable amount of material from other common law jurisdictions, including Australia, Canada, New Zealand and Singapore. It will appeal to readers from those countries.

Advising Ultra-Affluent Clients and Family Offices - Michael M. Pompian - 2009-04-22
A timely guide for financial professionals looking to tap into the lucrative world of the ultra-affluent. The ultra-affluent—defined here as those having $50 million or more in liquid assets—are an elite class who expect their financial advisors not only preserve and grow their assets, but also help them with "soft" issues such as philanthropy and family governance. One of the biggest factors to success in this field is the relationship between the client and the advisor. In Advising Ultra-Affluent Clients and Family Offices, author and practicing investment consultant Michael Pompian provides a practical introduction to who the ultra-affluent actually are and reveals what it takes to build and maintain a solid relationship with them. Filled with in-depth insights and expert advice, this unique resource offers valuable information on issues that every advisor to the ultra-affluent must be familiar with.
