The Colonial Records of the State of Georgia - Kenneth Coleman - 2021-10-15

The Colonial Records of the State of Georgia document the colony through its first twenty-five years and includes correspondence between Georgia founder James Oglethorpe and the Trustees for Establishing the Colony, as well as records pertaining to land grants; agreements and interactions with Indigenous peoples; the settlement of a small Jewish community and the Salzburgers, German-speaking Protestant refugees; and the removal on restrictions of land tenure, rum, and slavery in the colony. Most of the local records of colonial Georgia were destroyed during the Revolution. Under Governor James Wright's direction, merchant John Graham loaded much of the official records on his vessel in the Savannah River. During the Battle of the Rice Boats in March 1776, the Inverness was burned while it lay at anchor. The destructive civil war that occurred in the latter phases of the Revolution resulted in further destruction. The Colonial Records of the State of Georgia, drawn from archival material in Great Britain, remain a unique source. Volume 20 concerns the actual founding of Georgia and covers the years 1732-35. It provides background on the settlement and a great deal about the arrival of the colonists and the conditions that they found. Volume 27, spanning the years 1754-56, contains the papers of Georgia's first governor, John Reynolds, as well as the correspondence of various inhabitants. Volume 28, Part I, contains the papers of governors John Reynolds, Henry Ellis, and James Wright from 1757 to 1763. Volume 28, Part II includes the papers of Governor James Wright, acting governor James Habersham, and others. Volume 29 contains the Trustees' Letter Book, 1752-1738. Volume 30 contains the Trustees' Letter Book, 1738-1745 Volume 31 contains the Trustees' Letter Book, 1745-1752 Volume 32 includes entry books of commissions, powers, instructions, leases, grants of land, and other documents by the Trustees.

The Colonial Entry-Books - A Brief Guide to the Colonial Records in
the Public Record Office Before 1696 - C. S. S. Higham - 2009-05
This early works is a fascinating look at the Colonial Records before 1696. It
will appeal greatly to any student of history. The main difficulty for students
who begin research work upon early colonial history is the confusion into
which the records have fallen through various rearrangements. Though the
final arrangement of the documents at the Public Record Office has made it
simple to obtain the particular document whose precis has been
consulted in the calendar, yet the present logical arrangement takes no
notice of the previous history of the various documents, for it is
geographical. Many of the earliest books, particularly those dating back to
1900's and before, are now extremely scarce and increasingly expensive.
We are republishing these classic works in affordable, high quality, modern
editions, using the original text and artwork.

Excerpt from The Colonial Records of North Carolina, Vol. 1: Published Under the Supervision of the Trustees of the Public Libraries, by Order of the General Assembly; 1662 to 1712 At a later date, the historian Williamson, who desired copies of certain papers in London relating to Carolina, hoped that Mr. Chalmers would furnish him therewith or assist him in obtaining them. Mr. Chalmers would do neither, and threatened to interfere if application should be made to the head of the proper department. In this connection, it must be borne in mind that access to the records in the British offices could not be had without special permission until a comparatively modern period. But how to account for the utter absence of records in North Carolina? There could have been no inducement to their destruction, and it follows, therefore, that we must look to natural causes, the want of towns and the consequent lack of known and suitable buildings used as depositories for public records. Experience proves that the most valuable documents, unless put away in such muniment rooms, soon disappear and are lost. The incompleteness of the records in North Carolina continued to be more and more felt until it was determined to perfect them as far as possible. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
