Since the beginning of the 2000s, important changes in external environments have affected the corporate governance practices of firms all around the world. The corporate governance structure in each country develops in response to country-specific factors and conditions. Firms are currently engaged in a variety of dynamic business relationships such as business networks, strategic alliances, and conglomerates especially in high technology sectors. Strategy, Structure and Corporate Governance by Nabyla Daidj proposes to analyze the main trends and drivers of change in corporate governance of multinational organizations - Large conglomerates. The development of large and complex conglomerate organizations have played an important role in the economy in Japan but also in other countries such as Korea with chaebols, which can be defined as closely intertwined industrial groupings. - Inter-firms networks (districts, clusters etc.); and, - Strategic alliances and mergers (business ecosystems). The author examines several case studies and shows how shifts in markets and global competition are reconfiguring transactions within these organizations and are impacting corporate governance systems.

Since her political independence from the British government in 1960, Nigeria has gone through different phases in the effort to develop the corporate sector. The intention was to drive the economy through corporate enterprises; however, the absence of effective corporate governance structure and conducive investment environment has no doubt been a source of concern for investors and successive governments. Meticulously researched and organized, this book presents advanced students in graduate programs with details and perspectives that other books overlook. Concentrates on underlying principles that change little, even as the empirical literature moves on. Provides a clear overview of underlying principles that change little, even as the empirical literature moves on. Provides an account of the historical development and delves into the history of corporate development from the 1960s through the present. In addition, it offers an in-depth analysis of the philosophical foundations for corporate governance and compiles the theories, models, and empirical evidence in corporate governance in the United Kingdom, Germany, the United States of America, and examines the role of countries in corporate-governance failures. A timely work, Corporate Governance Framework in Nigeria will interest students of business economics, business law, legal practitioners, and researchers in the field of corporate governance.
