Who should read Critical Conversations In Philosophy Of Education

Critical Conversations In Philosophy of Education presents a series of engaging arguments that are far from the status quo in the field of educational studies. The essays in this volume explore the complex interplay of education, philosophy, and society, offering readers a fresh perspective on the discipline.

In Critical Conversations, the contributors address a range of issues, from the philosophical underpinnings of education to the practical implications of educational policies. They explore questions such as: What is the role of education in society? How can we ensure that education is equitable and accessible for all? What are the ethical implications of educational practices?

The essays in Critical Conversations are written by leading philosophers and educators, including some of the most influential thinkers in the field. Each essay is thought-provoking and challenging, encouraging readers to think critically about education and its role in society.

Critical Conversations In Philosophy of Education is a must-read for anyone interested in the future of education and its relationship with philosophy. It is an essential resource for students, educators, and anyone involved in the field.

Critical Conversations In Philosophy of Education: Volume 2: Moving From Monologue to Dialogue

Critical Conversations provides a series of theological engagements with the work of Michael Polanyi, one of the twentieth century's most profound philosophers of science. Polanyi's sustained explorations of the nature of human knowing open a range of questions and themes of profound importance for theology. He insists on the relationship between knowing and believing, seeing knowing as the source of our belief. Polanyi's work proves to be a valuable resource to both scholars and practitioners of education.

Handbook of Research in the Social Foundations of Education  - Steven Tozer - 2011-07-05

Parts one and two of this volume present the theoretical lenses used to study the social contexts of education. These include long-established foundations disciplines such as sociology of education and philosophy of education as well as newer theoretical perspectives such as critical race theory, feminist educational theory, and cultural studies in education. Parts three, four, and five demonstrate how these theoretical lenses are used to examine such phenomena as globalization, media, popular culture, technology, youth culture, and schooling. This groundbreaking volume helps readers understand the history, evolution, and significance of these interwoven, often underappreciated, and increasingly important field of study. This book is appropriate as a reference volume not only for scholars in the social foundations of education but also for scholars interested in the cultural contexts of teaching and learning. It is also appropriate as a textbook for graduate-level courses in Social Foundations of Education, School and Society, Educational Policy Studies, Cultural Studies in Education, and Curriculum and Instruction.
