societies have established that there are necessary behaviors a caregiver

Child abuse or child maltreatment is physical, sexual, and/or psychological maltreatment or neglect of a child or children, especially by a parent or a caregiver. Child abuse may include any act or failure to act by a parent or a caregiver that results in actual or potential harm to a child and can occur in a child's home, or in the organizations, schools, or communities the child interacts with. Effects of child abuse and neglect. All types of abuse and neglect leave lasting scars. Some of these scars might be physical, but emotional scarring has long lasting effects throughout life, damaging a child's sense of self, their future relationships, and ability to function at home, work and school. If you suspect that a child or youth has been or is being abused, you need to help them—read how. Emotional, physical and sexual abuse can have an impact across an entire lifetime. Abuse and neglect happen to young children and teenagers. Mandatory reporting laws and identification of child abuse and neglect: Child neglect is a form of abuse, an egregious behavior of caregivers (e.g., parents) that results in depriving a child of their basic needs, such as the failure to provide adequate supervision, health care, clothing, or housing, as well as other physical, emotional, social, educational, and safety needs. All societies have established that there are necessary behaviors a caregiver must. Federal child welfare statutes establish minimum standards, which are then implemented with greater specificity by state statutes.[3] A minimal description of child abuse and neglect is found in the federal child abuse prevention and treatment act (capta), as amended by the keeping children and families safe act of 2003. The development of child abuse and neglect laws and policies should include the application of reason, evidence, and an evaluative framework to such decisions (Pecora et al., 2000). The application of reason refers to public discourse by practitioners, advocates, researchers, and legislators (Pecora et al., 2000). The evidence for passing laws and changing public policy is derived from a variety
